

# FDOT District 5

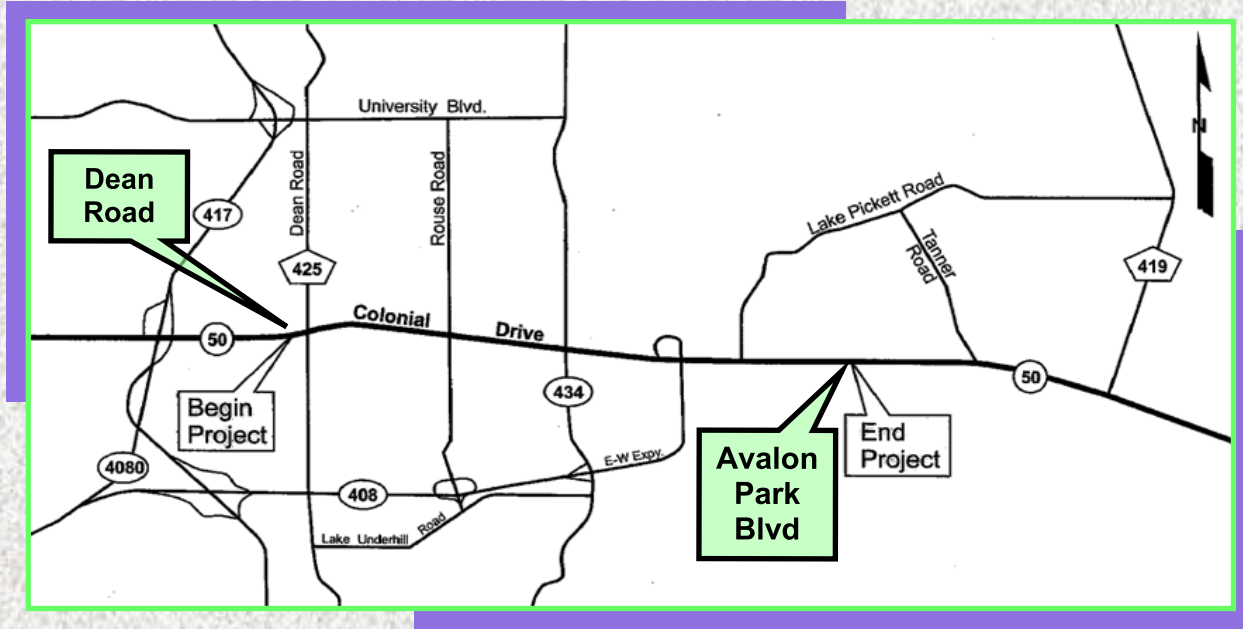

State Road (SR) 50 from Dean Road to Avalon Park Boulevard  
FPID: 239203-4-52-01 / Orange County

## State Road (SR) 50 (Colonial Drive) Widening Project

### PROJECT OVERVIEW

The State Road (SR) 50 (Colonial Drive) project from Dean Road to Avalon Park Boulevard has been under construction since the Winter of 2015. In light of projected population growth, key goals for this project continue to be to increase traffic capacity and improve roadway safety. Current standards for new construction, repairs and upgrades are designed considering what future traffic needs will be. In addition to improving capacity, the project will improve the operation and safety with the addition of lighting and extending turn lanes at intersections. Multimodal improvements include bus pads, bike lanes and sidewalks.

### CONSTRUCTION

State Road (SR) 50 is being widened from its current 4 lanes to 6 lanes with grass median. The length of the project is 5.5 miles in total. There are 11 major intersections along SR 50 within the project limits. They include:

- ◆ Rouse Rd.
- ◆ Alafaya Trail
- ◆ Lake Berge Rd.
- ◆ Sophie Blvd.
- ◆ Murdock Blvd.
- ◆ Bonneville Dr.
- ◆ SR 408
- ◆ Woodbury Rd.
- ◆ Pebble Beach Blvd.
- ◆ Lake Picket Rd.
- ◆ Avalon Park Blvd.

As part of this project, there will be the addition of intersection improvements, drainage ponds, and bridge culvert replacements.

**Project Start Date:** Winter 2014  
**Project End Date:** Spring 2017  
**Project Cost:** \$68 Million  
**Project City:** Orlando, Florida  
**Project County:** Orange
