The Florida Department of Transportation will conduct a Public Hearing for the proposed safety improvements on S.R. 436/South Semoran Boulevard just south of S.R. 552/Curry Ford Road at the Ross entrance driveway. The project addresses operational and safety concerns in the area by converting the full median opening to a bi-directional median opening with a new signal providing a protected left turn phase for left turns from SR 436. This modification reduces traffic conflict points at the intersection, improving safety.

This public hearing is being conducted to give interested persons an opportunity to express their views concerning the location, conceptual design, and social, economic, and environmental effects of the proposed improvements. Draft project documents will be available for public review from November 28, 2017 to January 2, 2018 at the FDOT Urban Office, 133 South Semoran Boulevard, Orlando, FL, 32807, Monday through Friday 8 a.m. to 5 p.m.

Participants may provide verbal comments directly to a court reporter before and after the formal presentation. Persons wishing to submit statements, in place of or in addition to oral statements, may do so at the hearing or by sending them to: Dave Mixon, Florida Department of Transportation, District Five Roadway Design, 719 S. Woodland Boulevard, M.S. No. 562, DeLand, FL 32720 or Dave.Mixon@dot.state.fl.us.

All statements postmarked on or before January 2, 2018 will become part of the Public Hearing record.
