

# Roadway Stabilization Maintenance Project

State Road (S.R.) 25/U.S. 441 (½ mile south of the Alachua County line)  
S.R. 35/Baseline Road (700 feet south of Northeast 24th Street)

Marion County

Financial Project ID: 423391-2-72-07

## Project Description

The Florida Department of Transportation (FDOT) will be injecting grout to stabilize the roadway at two locations as part of a maintenance project. The two locations are:

- U.S. 441 northbound about ½ mile south of the Alachua County line
- S.R. 35/Baseline Road southbound about 700 feet south of Northeast 24th Street

## Lane Closures

There are no restrictions on U.S. 441 lane closures. However, motorists should expect only a single lane at-a-time to be closed for work. Lane closures may occur on Baseline Road at any time except between 2 p.m. and 6 p.m. Motorists should expect single lane closures at this location as well; however, most of the work will occur near the median. The project should take approximately two to three weeks to complete at each location.

**FDOT reminds all road users to pay attention and be vigilant within construction zones.**

## Fast Facts

### Contractor:

Foundation Services of Central Florida, Inc.

### Total Cost:

\$160,840

### Work to Begin:

May 2018

### Estimated Completion:

Summer 2018
