

Bridge Bearing Rehabilitation U.S. 92 Over Halifax River (Bridges 790187 and 790188)

Volusia County

Financial Project ID: 439453-1

Project Description

The Florida Department of Transportation (FDOT) will clean and coat the bridge bearings on the U.S. 92/International Speedway Boulevard bridges over the Halifax River. The bearings provide flexibility to the roadway as the concrete expands and contracts, and help to transfer weight across the supporting piers. This project is needed to ensure continued high function of the bearings. The project also will include minor concrete work below the bearings.

Impact to Motorists and Boaters

The bearings are located below the roadway at the top of the support piers. Boaters are asked to use caution when overhead works occurs. The channel will remain open. For drivers, nighttime single lane closures may be needed during the project to accommodate the work.

Project information and updates can be found on the FDOT Central Florida website www.cflroads.com.

Fast Facts

Contractor:
Olympus Painting
Contractors, Inc.

Total Cost:
\$407,000

Work to Begin:
February 2019

Estimated Completion:
Summer 2019
