

State Road (S.R.) 464 at S.R. 200 & U.S. 441 Intersections

Marion County

Financial Project Identification (FPID): 439887-1

Project Description

The Florida Department of Transportation (FDOT) will convert all existing lighting fixtures to light-emitting diodes (LED) at the intersections of S.R. 200 (Southwest 10th Street) and U.S. 441 (South Pine Avenue) with State Road (S.R.) 464 (Southwest 17th Street) in Ocala. The goal of this project is to improve the nighttime visibility of pedestrians.

What to Expect

Access to businesses will be maintained by the contractor during work activities, which may require nighttime lane closures between 8 p.m. and 5:30 a.m. Nighttime sidewalk closures may also occur. Some work may take place during the day, but daytime lane closures are not anticipated.

Safety

Electronic message boards and other signage will be posted to provide advance lane closure notice to drivers and to direct traffic around work. Temporary structures and signs will also be in place to safely direct pedestrians and bicyclists around work.

Fast Facts

Contractor:
Contact Network LLC

Project Cost:
\$85,400

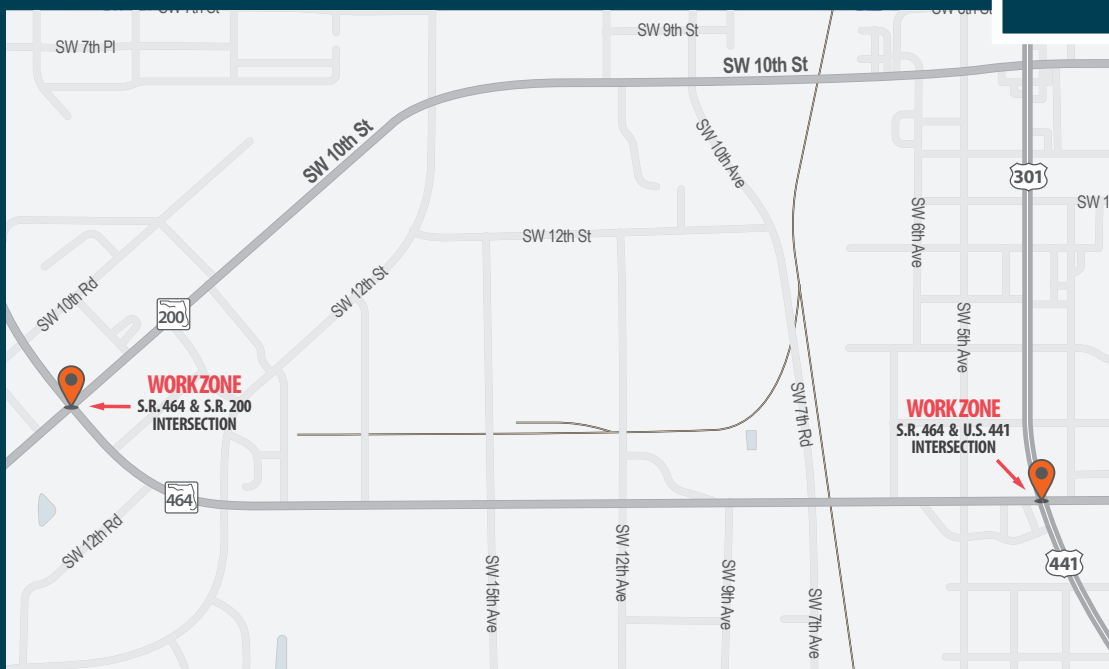

Project Start:
Summer 2019

Estimated Completion:
Early Fall 2019
