Welcome!

Welcome to the Babcock Street (State Road (S.R.) 507) Corridor Planning Study Public Kickoff Workshop! The study, which is the first phase in the transportation development process, is evaluating multimodal deficiencies, needs and possible enhancements along Babcock Street (State Road (S.R.) 507) from Palm Bay Road to New Haven Avenue (U.S. 192) in Brevard County.

The purpose of the meeting is to present initial findings related to existing and future conditions and receive input from interested stakeholders.

Next Steps

The next steps in the corridor planning study process will be to develop a variety of potential roadway concepts that meet the future needs of the corridor. These options will be presented at the second public workshop anticipated to take place the summer of 2019.
