SR 9 (I-95) Improvement Project

Brevard County, FL --- The Florida Department of Transportation's (FDOT) Improvement Project on SR 9 (I-95) from south of Fiske Blvd. to Palm Bay, is scheduled to begin **April 27th 2008.**

This \$196.3 million project consists of widening SR 9 (I-95) from four lanes to six lanes from south of Fiske Blvd. to Palm Bay, widening bridges at Eau Gallie and Lake Washington, constructing new bridges at US 192 and Wickham Road, as well as a new interchange at Pineda Causeway.

The work, to be performed by Community Asphalt's crews and their subcontractors, will last approximately 1200 calendar days, weather permitting.

Lane closures will be necessary at various times and locations in order for workers to complete this work safely.

Please use extreme caution and be alert when driving, walking or biking around the construction area. Motorists should be alert for lane shifts or closures, and for construction equipment entering and leaving the highway.
