North Harbor City Boulevard and Pineda Causeway Eastbound Ramps

Brevard County

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) will improve safety and traffic operations by adding a traffic signal on North Harbor City Boulevard (U.S. 1/State Road (S.R.) 5) at the Pineda Causeway (S.R. 404) eastbound ramps, along with dual right turn lanes at the Pineda Causeway eastbound off ramp to North Harbor City Boulevard.

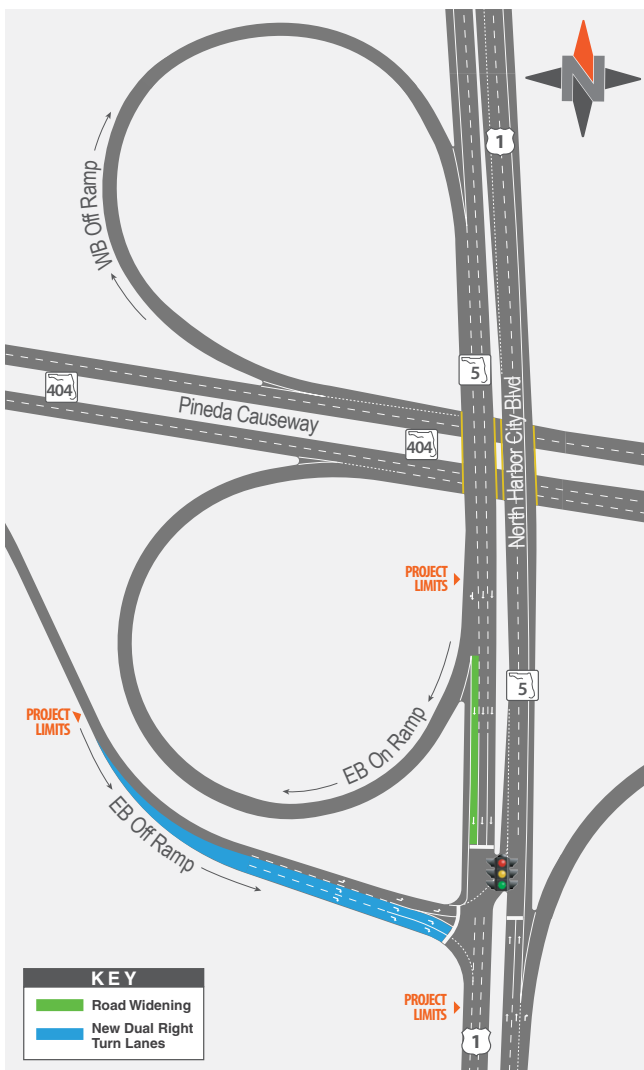

Additional work will include widening North Harbor City Boulevard to build a 12-foot-wide travel lane approaching the new traffic signal at the Pineda Causeway eastbound ramps. The new travel lane will eliminate the merging actions from drivers coming off the Pineda Causeway westbound ramp to southbound North Harbor City Boulevard. This will increase safety and help enhance traffic flow by reducing the number of ways vehicles can legally cross paths (known as

conflict points) and potentially collide. The installation of solar-powered wrong way signage, guardrail and drainage improvements, and new signage and pavement markings are also a part of this project.

WHAT TO EXPECT

Motorists should expect lane closures and detours from 8 p.m. to 7 a.m. on weekdays and weekends. Electronic message boards and other signage will be used to direct traffic. Uneven pavement is a common roadway condition with resurfacing projects as the contractor must put down different layers of asphalt during various phases of construction. Such road conditions during construction are short-term and will become less apparent as the project progresses. Motorists are asked to use extra caution while driving through the work zone. Traffic fines are double when construction workers are on site.

Additionally, the level of work activity will vary during different phases of construction, and paving operations will be intermittent. The construction schedule could change due to weather or other unexpected conditions. For the most current project details and lane closure information, make sure to visit the project page on FDOT's Central Florida website, www.cflroads.com.

CONTRACTOR

Ranger Construction Industries, Inc.

PROJECT COST

\$1.9 Million

PROJECT START

Summer 2021

ESTIMATED COMPLETION

Late 2022
