

ROADWAY RESURFACING

S.R. 518/Montreal Avenue Milling and Resurfacing from U.S. 1 to Pineapple Avenue

Brevard County

**Financial Project Identification
(FPID) No.: 442881-1**

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) will be improving safety and traffic operations on State Road (S.R.) 518/ Montreal Avenue. FDOT aims to extend the service life of the roadway by resurfacing along S.R. 518/Montreal Avenue from S.R. 5/ U.S. 1 to Pineapple Avenue. This resurfacing and rehabilitation project will include adding landscaped curb extensions, removing and updating on-street parking spaces, adding a 7-foot-wide buffered bike lane, and modifying existing sidewalks. This project will also improve roadway conditions for motorists, help enhance drivability in the area, and ensure roadway longevity.

WHAT TO EXPECT

Motorists should expect lane closures throughout construction. Electronic message boards and other signage will be used to alert motorists of traffic changes. Uneven pavement is a common, unavoidable roadway condition with projects that require resurfacing, as the contractor must place different layers of asphalt during various phases of construction. Road conditions during construction will become less apparent as the project progresses. Motorists are asked to exercise caution and reduce their speed while driving through the work zone.

The construction schedule may change due to weather or other unexpected conditions. For the most current project details and lane closure information, make sure to visit the project page on FDOT's Central Florida Roads website, www.cflroads.com.

CONTRACTOR

OHLA USA, Inc.

PROJECT COST

\$1.6 Million

PROJECT START

December 2022

ESTIMATED COMPLETION

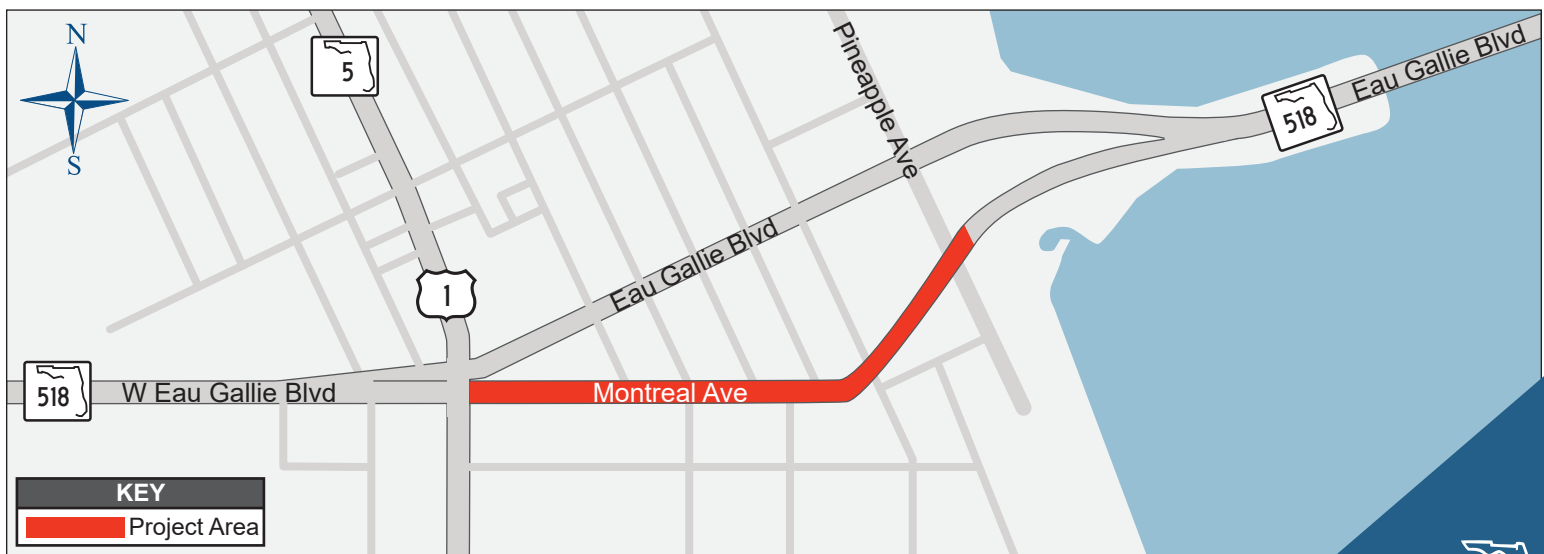

Spring 2023
