

## Public Meeting Summary

Prepared and submitted by: Shemir Wiles with Quest Corporation of America

Date: Tuesday, January 16, 2018  
Time: Open House 5:30 p.m. – 7:30 p.m.  
Location: American Legion Department of Florida  
1912A Lee Road  
Orlando, FL 32810  
Attendees: See Attached Sign-In Sheets

## Project Description

This capacity improvement project will enhance safety by improving mobility and access throughout this section of John Young Parkway. The proposed improvements include widening John Young Parkway from a four-lane to a six-lane urban facility, increasing turn lane lengths, adding bicycle lanes, sidewalk and curb and gutter reconstruction, and median modifications. Other improvements include drainage, utilities relocation, signals, signage, intelligent transportation systems (ITS), and two new pond facilities.

The Florida Department of Transportation (FDOT) held a public meeting on Tuesday, Jan. 16, 2018, at the American Legion Department of Florida, 1912A Lee Road, Orlando, Florida 32810. The purpose of the meeting was to inform the community about the upcoming construction project and provide an opportunity for questions.

## Public Notification

Notice of this public meeting was published in *The Orlando Sentinel*-Orange County Zone on Dec. 31, 2017. Notices were sent to property/business owners and residents/tenants located within at least 300 feet on either side of the project corridor, and to public officials, appointed officials, and individuals interested in the project. Meeting notices were posted in the Florida Administrative Register (FAR), on the FDOT District Five public notice website, and through an FDOT media release. The public meeting press release and PowerPoint presentation were also posted on the project page located on [www.CFLRoads.com](http://www.CFLRoads.com). Copies of all public notices are available in Appendix I.

## Meeting Handouts

Attendees were given project information handouts and an FDOT access management brochure as they signed in. They were also provided comments cards and encouraged to submit comments during or after the meeting. Copies of the meeting handouts are provided on [www.CFLRoads.com](http://www.CFLRoads.com) in Appendix II.

### **Public Meeting Agenda**

The public meeting was conducted as an open house and began at 5:30 p.m. FDOT, KCCS Construction Services and WSP personnel were available to answer questions about the project. A looped PowerPoint presentation with a recorded voiceover was also available for viewing. Project staff remained until 7:30 p.m. for any questions and discussion with those in attendance. A copy of the presentation is available on [www.CFLRoads.com](http://www.CFLRoads.com) in Appendix III.

### **Display Boards and Roll Plots**

Several display boards and a roll plot were exhibited during the public meeting. The displays depicted the typical sections for the entire project. Copies of the public meeting displays and roll plot are provided in Appendix IV.

### **Meeting Attendance**

Thirty-two (32) people signed in at the registration table, not including FDOT and consultant personnel. City of Orlando City Commissioner Robert Stuart was in attendance, as well as Capt. Joe Carter with the Orange County Sheriff's Office, and Christopher Cairns, Division Manager, Transportation Engineering, with the City of Orlando.

Project Manager Carlton Daley with FDOT, Senior Project Engineer Antonio Rodriguez with KCCS Construction Services, and Daniel Jenkins, Michael Quartetti, and Jacob McClish with WSP were present to provide information and answer questions. In addition, FDOT District Five Communications Manager Steve Olson was present to provide information to and conduct interviews with Fox News 35 and WFTV Channel 9. Sign-in sheets are provided in Appendix V.

### **Public Comments**

Participants were given an opportunity to provide public comments in the following ways:

- Written comments on comment cards provided at the public meeting
- Mail comments to: Shemir Wiles, Public Information Coordinator, 420 W. Landstreet Road, Orlando, Florida 32824, no later than Feb. 6, 2018
- E-mail comments to: [Shemir.Wiles@dot.state.fl.us](mailto:Shemir.Wiles@dot.state.fl.us), no later than Feb. 6, 2018

Ten (10) comment cards were submitted at the meeting. In addition, a petition with 53 signatures for a sound barrier on John Young Parkway was presented at the meeting. A copy of the petition can be found in Appendix VI. All written comments and requests have become part of the project's public record and are included in this Summary Report in Appendix VII.

Dear Elected Official;

The Florida Department of Transportation (FDOT) invites you to a public meeting Tuesday, January 16, 2018 to learn more about the construction project to widen S.R. 423/John Young Parkway from four to six lanes. The limits of the project are from S.R. 50/West Colonial Drive to Shader Road. Other improvements include curb and gutter, drainage system improvements, two new ponds, sidewalks, lighting, signing and pavement markings, intelligent transportation system (ITS) improvements, and signals.

Work on this \$28 million project is expected to begin early 2018. The contractor is Southland Construction, Inc.

The public information meeting will take place at The American Legion Department of Florida, 1912A Lee Road, Orlando, Florida 32810. The meeting is an informal open house from 5:30 p.m. to 7:30 p.m. with project representatives available to answer your questions. Maps, drawings and other pertinent information for this project are also available for viewing at the meeting.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons wishing to express their concerns relative to FDOT compliance with Title VI may do so by contacting Jennifer Smith, FDOT District Five Title VI Coordinator, at [Jennifer.Smith2@dot.state.fl.us](mailto:Jennifer.Smith2@dot.state.fl.us).

Persons with disabilities who require accommodations under the Americans with Disabilities Act (ADA), or persons who require translation services (free of charge), should contact Shemir Wiles, Public Information Coordinator, at 321-319-8130 or via e-mail at [Shemir.Wiles@dot.state.fl.us](mailto:Shemir.Wiles@dot.state.fl.us) at least seven (7) days prior to the meeting. If you are hearing or speech impaired, please contact us using the Florida Relay Service, 1-800-955-8771 (TDD) or 1-800-955-8770 (Voice).

If you have questions or would like to have more information about this project, please contact Carlton Daley, FDOT Project Manager, at 321-319-8129 or via email at [Carlton.Daley@dot.state.fl.us](mailto:Carlton.Daley@dot.state.fl.us).

Sincerely,

Steve W. Martin, P.E.  
FDOT District 5 Secretary

## Public Information Meeting for John Young Parkway Widening Project

District: Five

Meeting Type: Open House

Date: Tuesday, January 16, 2018

Time: 5:30 pm to 7:30 pm

Location Name: The American Legion Department of Florida

Street Address: 1912A Lee Road

City: Orlando

Purpose:

The Florida Department of Transportation (FDOT) is holding a public meeting regarding the State Road (S.R.) 423/John Young Parkway widening construction project. The meeting is an informal open house format scheduled for next Tuesday, Jan. 16, from 5:30 to 7:30 p.m. at The American Legion Department of Florida, 1912A Lee Road, Orlando, FL 32810. Plans will be available for review and project staff will be available to address questions.

The \$28 million project will widen John Young Parkway from four to six lanes beginning at S.R. 50/West Colonial Drive and ending at Shader Road. Other improvements include curb and gutter, drainage, two new ponds, sidewalks, lighting, signing and pavement markings, intelligent transportation system (ITS) improvements, and signals. Work is slated to begin early 2018.

Persons with disabilities who require accommodations under the Americans with Disabilities Act or persons who require translation services (free of charge) should contact Shemir Wiles, Public Information Coordinator, at 321-319-8130 or via email at [Shemir.Wiles@dot.state.fl.us](mailto:Shemir.Wiles@dot.state.fl.us). If you are hearing or speech impaired, please contact us by using the Florida Relay Service, 1-800-955-8771 (TDD) or 1-800-955-8770 (Voice).

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons wishing to express their concerns relative to FDOT compliance with Title VI may do so by contacting Jennifer Smith, FDOT District Five Title VI Coordinator, [Jennifer.Smith2@dot.state.fl.us](mailto:Jennifer.Smith2@dot.state.fl.us).

**Legal Notices**

**Public Hearing Notices**

**ORANGE COUNTY**  
NOTICE OF PUBLIC HEARING

The Orange County Board of County Commissioners will conduct a public hearing on January 31, 2018, at 2 p.m., or as soon thereafter as possible, in the County Commission Chambers, First Floor, County Administration Center, 201 South Rosalind Avenue, Orlando, Florida. You are invited to attend and be heard regarding a request by:

**Applicant:** Dream Big Academy and Dance  
**Case No.:** Board of Zoning Adjustment, Case # 18-17-15-26, December 7, 2017.  
**Consideration:** Request for a special exception to construct and allow to arrive schoolbuses for up to 150 students grades Pre-K to 5th.

**Location:** District 2, property generally located north side of Clarence Oates Rd., west of Lora Lake Dr., Orange County, Florida (lead property description on file in Zoning Division).

You may obtain a copy of the legal property description by calling the Orange County Zoning Division, 407-836-2666, or pick one up at 201 South Rosalind Avenue, First Floor, Orlando, Florida.

**IF YOU HAVE ANY QUESTIONS REGARDING THIS NOTICE, CONTACT THE ORANGE COUNTY ZONING DIVISION.** 407-836-2666. Email: sean.bailey@ocfl.net

**PARA MÁS INFORMACIÓN, REPRESENTAR A ESTA VISTA PÚBLICA CON RESPECTO A UNA AUDIENCIA PÚBLICA SOBRE PROYECTO DE ZONIFICACIÓN, AL FAVOR COMUNICARSE CON LA DIVISIÓN DE ZONIFICACIÓN, AL NÚMERO, 407-836-2666.**

If you wish to appeal any decision made by the Board of County Commissioners at this meeting, you will need a record of the proceedings. You should ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

If you require special accommodations under the Americans with Disabilities Act of 1990, please call 407-836-2621 no later than two business days prior to the hearing for assistance. If you require a sign language interpreter, please call 407-836-2621 no later than two business days prior to the hearing for assistance.

PHIL Diamond, County Commissioner  
 As Clerk of the Board of County Commissioners  
 Orange County, Florida

## WHAT'S HAPPENING

Continued from Page J1

open environment to develop change in this six-workshop series. Attendees are encouraged to bring a pen and notebook. 6:30 p.m. Thursdays beginning Jan. 18, Orlando Public Library, 101 E. Central Blvd., Orlando, free, 407-835-7323.

### Outdoor

**Lake Apopka Birding Festival:** The three-day event will allow participants to learn from well-known, knowledgeable birding guides. There will be keynote speakers, birding and photography field trips on the St. Johns River Water Management District's 20,000-acre Lake Apopka North Shore. Based out of the McDonald Canal area in the northwest (Lake County) part of the North Shore, trips will allow driving entry beyond closed gates to search for common and rare bird species, with lunches (included) back at the McDonald Canal Pavilion. Twenty-one photo and birding field trips will be offered. Advance registration required. Prices vary per field trip. Jan. 19-21, 407-637-2525.

**Camellia walking tour:** Join Robert Bowden, director of Leu Gardens, for an in-depth tour of the garden's camellia collection, one of the largest in the United States. Wear walking shoes and bring a camera. Reservations required. 1-2 p.m. Jan. 30, Harry P. Leu Gardens, 1920 N. Forest Ave.,

Orlando, \$6 for garden members, \$12 for nonmembers, 407-246-2620.

### Recreation

**Walk:** The Mid-Florida Milers Walking Club, a member of the American Volkssport Association, is sponsoring a walk in Orlando, which will include Universal CityWalk. Two distances available: 10K (6 miles) or 5K (3 miles). Start between 9-9:45 a.m. Jan. 1, Miller's Ale House - Orlando Kirkman, 5573 S. Kirkman Road, Orlando, \$3 for club members who want credit; free for all others, 407-695-9181.

**Learn to Square Dance:** Free introductory lessons. 8 p.m. Jan. 9 and Jan. 16, Whirl and Twirl Dance Club, 6949 Venture Circle, Orlando, free, 407-679-2882.

### Senior

**Retired educators:** The Orange County Retired Educators Association will have a program about Orange Technical College and scholarships. 10 a.m. Jan. 4, College Park United Methodist Church, 644 W. Princeton St., Orlando, free, 407-677-0446.

**Smarter Senior Seminar Series:** Learn about home services. Reservations required. Light refreshments will be served. 10:30 a.m.-12:30 p.m. Jan. 10, Southwest branch of the Orange County Library System, 7255 Della Drive,

Orlando, free, 407-340-5291.

**How to Pay for Long-Term Care: Medicaid & VA Benefits seminar:** Board Certified Elder Law Attorney Heather Kirson will discuss estate planning, advance directives, nursing home asset protection, Medicaid and veterans benefits. Reservations requested. 6 p.m. Jan. 9, 10 a.m. Feb. 13, Marks Street Senior Recreation Complex, 99 E. Marks St., Orlando, free, 407-422-3077.

**Driver safety program:** The AARP Driver Safety Program's Smart Driver Course helps participants refine driving skills and develop safe driving habits. Upon completion of the course, Florida drivers 50 or older may be eligible for vehicle insurance discounts. Registration required. 9 a.m.-3:30 p.m. Jan. 18, Fran Carlton Recreation Center, 11 N. Forest Ave., Apopka, \$15 for AARP members, \$20 for nonmembers, 407-703-1741.

**Driver safety program:** The AARP Driver Safety Program's Smart Driver Course helps participants refine driving skills and develop safe driving habits. Upon completion of the course, Florida drivers 50 or older may be eligible for vehicle insurance discounts. Advance registration required. 9 a.m.-3:30 p.m. Jan. 18, Feb. 15, Calvary Assembly Church, 1199 Clay St., Winter Park, \$15 for AARP members, \$20 for nonmembers, 407-977-3825.

**Driver safety program:** The AARP Driver Safety Program's Smart Driver Course helps participants refine driving skills and

develop safe driving habits. Upon completion of the course, Florida drivers 50 or older may be eligible for vehicle insurance discounts. Advance registration required. 9 a.m.-3:30 p.m. Jan. 25, Feb. 22, Renaissance Senior Center at South Ecom Community Park, 3800 S. Ecomlockhatchee Trail, Orlando, \$15 for AARP members, \$20 for nonmembers, 407-254-9070.

**Driver safety program:** The AARP Driver Safety Program's Smart Driver Course helps participants refine driving skills and develop safe driving habits. Upon completion of the course, Florida drivers 50 or older may be eligible for vehicle insurance discounts. Advance registration required. 9 a.m.-3:30 p.m. Jan. 16, Feb. 20, Marks Street Senior Recreation Complex, 99 E. Marks St., Orlando, \$15 for AARP members, \$20 for nonmembers, 407-977-3825.

**Driver safety program:** The AARP Driver Safety Program's Smart Driver Course helps participants refine driving skills and develop safe driving habits. Upon completion of the course, Florida drivers 50 or older may be eligible for vehicle insurance discounts. Advance registration required. 10 a.m.-4:30 p.m. Jan. 13, Feb. 10, Beardall Senior Center, 800 S. Delaney Ave., Orlando, \$15 for AARP members, \$20 for nonmembers, 407-246-4440.

### Social/Hobby Clubs

**Tarflower Chapter of the Florida Native Plant Society:** Michael Jenkins, plant conservationist with the State of Florida will present the program, "The Rare and Unique Plants of Central Florida." 7 p.m. Jan. 9, Harry P. Leu Gardens, 1920 N. Forest Ave., Orlando, free, 407-647-5233.

**Winter Park Garden Club:** The program will be "Creating Your Own Tea Cup Arrangement." Bring your own tea cup and go home with a charming arrangement of your own. Flowers supplied, but bring your own garden clippers and tea cup. 10 a.m. Jan. 10, 1300 S. Denning Drive, Winter Park, free, 407-644-5770.

**Orange Audubon Society:** Gian Basili, an ornithologist and conservation biologist with the U.S. Fish and Wildlife Service, will discuss how Lake Apopka was brought back from being a "dead lake" to being one of the east coast's birding hotspots. Basili was one of the people most responsible for guiding restoration efforts on the Lake Apopka North Shore and for opening the area to birding and other passive recreational use. 7 p.m. Jan. 18, Harry P. Leu Gardens, 1920 N. Forest Ave., Orlando, free, 407-637-2525.

Joseph Rassel of the Sentinel staff compiled this report. To submit an item e-mail communityevents@orlandosentinel.com.

### PUBLIC INFORMATION MEETING FOR STATE ROAD 423 (JOHN YOUNG PARKWAY) WIDENING PROJECT

FINANCIAL PROJECT ID: 239496-3

The Florida Department of Transportation (FDOT) is holding a public meeting regarding the State Road (S.R.) 423/John Young Parkway widening construction project in Orange County.

The project limits are from State Road 50 (West Colonial Drive) to Shader Road. Other improvements include curb and gutter, drainage system improvements, two new ponds, sidewalks, lighting, signing and pavement markings, intelligent transportation system (ITS) improvements, and signals.

The meeting is scheduled for **Tuesday, January 16, 2018, from 5:30 p.m. to 7:30 p.m. at The American Legion Department of Florida** located at 1912A Lee Road, Orlando, Florida 32810. The meeting is an informal open house where plans will be available for review and project staff will be available to address questions.

Persons with disabilities who require accommodations under the Americans with Disabilities Act or persons who require translation services (free of charge) should contact Sherrin Wiles, Public Information Coordinator, by phone at 321-319-8130, or via email at Sherrin.Wiles@dot.state.fl.us at least seven (7) days prior to the meeting. If you are hearing or speech impaired, please contact us by using the Florida Relay Service, 1-800-955-8771 (TDD) or 1-800-955-8770 (Voice).

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons wishing to express their concerns relative to FDOT compliance with Title VI may do so by contacting Jennifer Smith, FDOT District Five Title VI Coordinator, at Jennifer.Smith2@dot.state.fl.us.

For additional information concerning the project, please contact Carlton Daley, FDOT Project Manager, at 321-319-8129 or via email at Carlton.Daley@dot.state.fl.us.

## Notice of Meeting/Workshop Hearing

### OTHER AGENCIES AND ORGANIZATIONS

#### Quest Corporation of America, Inc.

The Florida Department of Transportation (FDOT) announces a public meeting to which all persons are invited.

DATE AND TIME: January 16, 2018, 5:30 p.m. – 7:30 p.m.

PLACE: The American Legion Department of Florida, 1912A Lee Road, Orlando, Florida 32810

GENERAL SUBJECT MATTER TO BE CONSIDERED: Financial Management No.: 239496-3.

Project Description: State Road 423 (John Young Parkway) widening from State Road 50 to Shader Road.

This is a construction project to widen John Young Parkway from four to six lanes. The limits of the project are from State Road 50 (West Colonial Drive) to Shader Road. Other improvements include curb and gutter, drainage system improvements, two new ponds, sidewalks, lighting, signing and pavement markings, intelligent transportation system (ITS) improvements and signals.

A copy of the agenda may be obtained by contacting: N/A – Informal Open House.

Pursuant to the provisions of the Americans with Disabilities Act, any person requiring special accommodations to participate in this workshop/meeting is asked to advise the agency at least 7 days before the workshop/meeting by contacting Shemir Wiles, Public Information Coordinator, (321)319-8130, [Shemir.Wiles@dot.state.fl.us](mailto:Shemir.Wiles@dot.state.fl.us). If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1(800)955-8771 (TDD) or 1(800)955-8770 (Voice).

For more information, you may contact: Carlton Daley, FDOT Project Manager, (321)319-8129 or [Carlton.Daley@dot.state.fl.us](mailto:Carlton.Daley@dot.state.fl.us).

# ACCESS MANAGEMENT

## BALANCING ACCESS AND MOBILITY

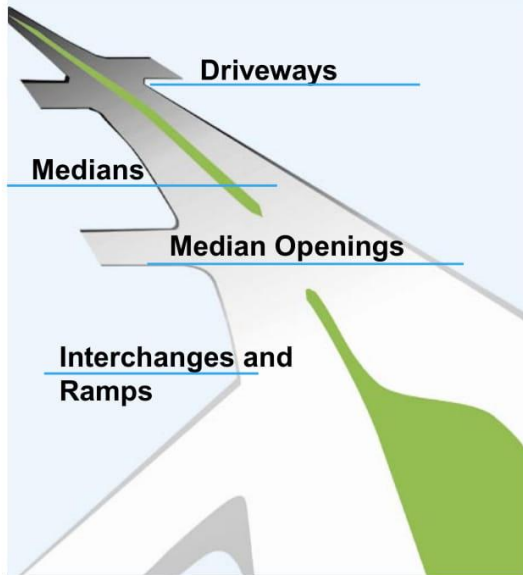

Answers to your questions

# ACCESS

## What is Access Management?

Access management is the careful planning of the location, design, and operation of driveways, median openings, interchanges, and street connections.

The purpose of access management is to provide access to land development in a manner that preserves the safety and efficiency of the transportation system.

Roads serve two primary purposes. One is **mobility** and the other is **access**. Mobility is the efficient movement of people and goods. Access is getting those people and goods to specific properties. A roadway designed to maximize mobility typically does so in part by managing access to adjacent properties. A good example is an Interstate Highway. While a motorist could expect to travel quite efficiently over a long distance using an Interstate Highway, the number of access points is restricted to only freeway interchanges every few miles. This type of roadway serves primarily a mobility function. At the other extreme, a local residential street would provide easy and plentiful access to all adjacent properties, but long distance travel on such a roadway would be impossible. This type of roadway serves primarily an access function.

Most state roads serve a function somewhere between the Interstate Highway and the local road described above. **One of the most important responsibilities of the Florida Department of Transportation (FDOT) is to ensure that the design of each state road properly balances access and mobility. Access management is used to provide this very important balance.**

Many business and property owners have expressed concerns regarding the FDOT access management policies. Some feel that the process is unfair. Others feel that the engineers and planners who make access management decisions are not sensitive to the needs of the business community. This brochure is intended to provide you with a better understanding of access management to dispel these concerns.

# CONFLICTS

## Does FDOT just think this stuff up?

Many business and property owners have asked us this question. The answer is no. The standards developed by FDOT are based on research done around the world for the last 40 years. Much of this research involved studying actual locations, many in Florida, where different access management strategies have been used. The studies evaluated the impacts of different access management treatments on crashes, congestion, and even business performance. The standards used by FDOT are thought **to provide the optimal balance between access and mobility**, and consider the characteristics of different types of roadways.

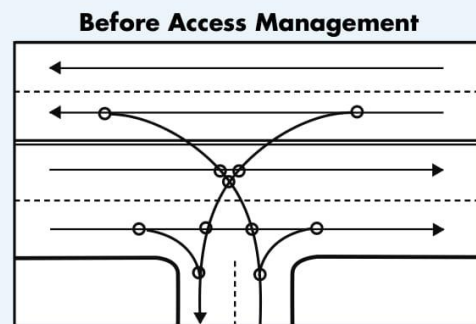

NO, the standards are based on over 40 years of experience and research

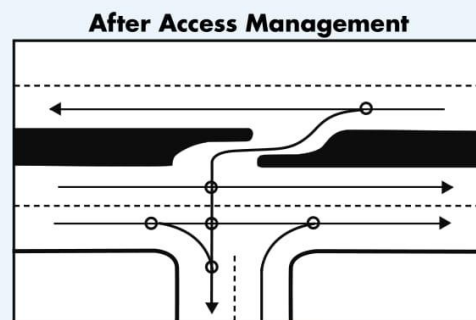

## How does Access Management improve safety?

By reducing conflicts.

Conflict points are locations along a roadway where two vehicles' paths can legally cross. At a four way intersection there are as many as 36 conflict points. Each conflict point is a location where a crash can occur. **A basic principal of access management is to limit the number of conflict points along a roadway by limiting the number of driveways and median openings and restricting certain movements at some median openings.** Drivers can be overwhelmed by conflict points in close proximity to one another, increasing the potential for crashes. Good access management practice strives to separate conflict points by providing a reasonable distance between driveways and between median openings.

**More Conflicts**

**Less Conflicts**

Access Management reduces crashes

# VALUE

## What will happen if access management is not implemented?

Businesses can be hurt by congested, high collision roadways near their entrance.

When safety and capacity deteriorate, one of the ways to fix the problem is to add lanes. Although a roadway may eventually need to be widened, **good access management practices can delay the need to widen the road for several years.**

In cases where roadways cannot be widened, good access management will help reduce congestion. Congestion results in safety problems and also discourages motorists from using the road, since most customers try to avoid unsafe or congested roadways whenever possible.

## Does access management keep customers away?

No, access management does not impact the demand for goods and services.

Studies have found that “destination” businesses (doctors, specialty retail stores, service-oriented businesses) are not affected by access management modifications. Interviews with both customers and business owners have shown that most people have no problem making a slightly longer trip, including U-turns, to access destination businesses. Although pass-by businesses (convenience stores, gas stations, fast food restaurants) may be impacted more by access management modifications, studies have shown that even pass-by businesses are not negatively impacted as long as reasonable access is provided. **As traffic flow is made more efficient, the roadway can handle more traffic and congestion levels decrease. This results in more motorists being exposed to your business.**

# CONGESTION

## How did Florida's growth affect customer traffic?

In Florida's past, the pinnacle of accessibility was the small corner business with driveways on both roads. As you drive down our highways you see the old corner gas stations and strip shopping centers. These small corner lots are now hard to access due to growing traffic queues and high traffic volumes. Traffic volumes are growing so fast that there is no way to keep up with the demand. Even with wider roads we have seen:

- Longer queues of traffic
- Greater congestion
- Peak traffic hours spreading over much of the day
- More difficulty for customers to turn in and out of businesses (especially turning left out of unsignalized driveways)

Small corner properties are more difficult to access.

This queue is blocking street traffic and additional customers

## What do your customer's want?

Increased congestion is causing customers to seek businesses with:

- Driveways unblocked by queues of traffic
- Easy access to neighboring businesses
- Access to signalized intersections and side streets to make left turns
- Safe driving conditions

A well-designed driveway enhances business

ACCESS MANAGEMENT

# IMPACT

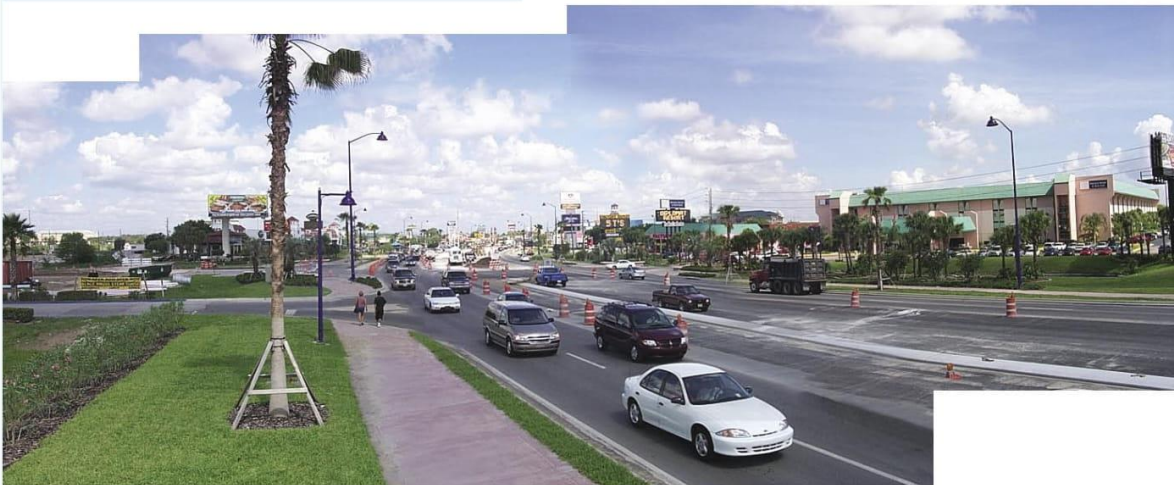

## Do access management projects harm businesses?

Most businesses see no loss in business due to access management improvements.

This question is asked quite often. We recognize that most business owners have invested a significant amount of their time and savings to establish and grow their businesses. The last thing FDOT wants to do is to have a negative impact on a business. In fact, FDOT strives to provide the citizens of Florida with a safe and efficient state roadway system. Such a system is critical to the economic prosperity of our state.

**In general, studies have found that access management modifications do not negatively impact businesses.** Businesses succeed or fail due to many factors. Studies have found that businesses do not fail at a higher rate along roadways that undergo access management modifications than along all roadways in general.

In order to make the best access management decisions possible, FDOT relies upon business and property owners, as well as others in the community, to provide input to the process. Information such as the specific access requirements of each business, internal traffic circulation and parking, truck requirements, plans for expansion, and any unusual circumstances are all very valuable to the engineers and planners who develop access management plans.

# CUSTOMERS

## What do your customers think of access management?

A number of surveys have been done to solicit input from drivers regarding access management projects. Motorists were asked to provide their opinions regarding changes to several roadways that had undergone access improvements. The over-whelming majority of motorists stated that **they liked the changes, felt the roadway was safer because of the changes, and that the selection of businesses they frequented was not affected by the changes.**

Your customers favor access managed highways 4 to 1.

### The Driver Survey

**78%** felt safer

**84%** felt traffic moved better

Drivers surveyed along 5 improved corridors in Central Florida FDOT District 5 (Ivey Harris & Walls - 1995)

## What have studies shown about business impacts of access management?

- In Florida, studies in Central Florida and South Florida show that the majority of corridor business operators saw an increase or no change in their customer traffic.
- In Texas and Florida, studies have shown that business expectations of bad impacts were higher than what actually happened when these same business operators were questioned after construction.
- In Iowa, studies across the state showed 80% of the businesses reported sales at least as high as they were before the access management projects were completed.
- In Kansas, fifteen businesses that had claimed inverse condemnation lawsuits due to perceived access problems were studied to see if the impacts of access management had been as bad as the owners had expected. In all the cases, except one, the businesses were still in operation or actually upgraded. The only case of failure was a gas station where the roadway changes required customers to go two miles out of their way.

Business owners report that the actual impacts to their properties were much less than they anticipated.

ACCESS MANAGEMENT

# COOPERATE

## How can business owners participate in the process?

Through public forums and working directly with FDOT.

You can help us understand your needs better than anyone!

**PUBLIC FORUMS:** One way to participate is to attend the public meetings that are held in advance of new access management projects to discuss issues specific to your property or business. Typically these meetings are announced using fliers, either mailed or hand delivered, along the roadway. Another method is to contact your District FDOT office and request that someone contact you individually to discuss your concerns or issues.

**ACCESS MANAGEMENT COMMITTEES:** Each FDOT District also has an access management committee responsible for making decisions regarding access management on the state highway system. If a property owner is concerned about an access management decision that affects their property or business, they can appeal to this committee and request the opportunity to present their concerns in person or in writing.

## What can businesses and neighborhoods do to promote good access management?

Work with FDOT and your neighbors to make your driveways safer.

Access Management strategies can help businesses, even those operating on older highway corridors by providing safer and more efficient travel to your business. These benefits can be accomplished by:

- Properly designed driveways shared by multiple businesses
- Better approaches to businesses from safer and better looking medians
- Moving driveways away from traffic signal intersections allowing easier access for customers, even during times of peak congestion

There are many other ways that businesses and FDOT can work together to make access management successful. Contact your District FDOT office and someone will be happy to discuss issues specific to your business or property.

---

Business can be our strongest  
Access Management partner

---

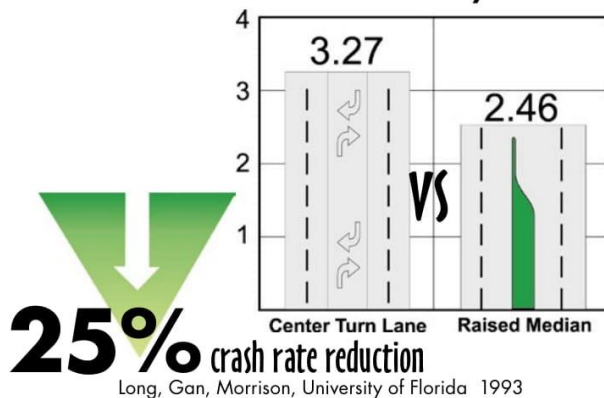

# SAFETY

## What positive impacts will good access management have on my business?

As traffic flow is made more efficient, the roadway can handle more traffic and congestion levels decrease. This results in more motorists being exposed to your business. Also, as safety of a roadway improves, motorists are more likely to be positive about the surrounding area. If it is very difficult to access a business due to a poorly designed driveway, motorists may go to businesses that do not have these problems. This is especially true of older drivers. Additionally, traffic accidents often result in motorists taking alternate routes to avoid congestion associated with accidents. Some of these diverted motorists could be potential customers.

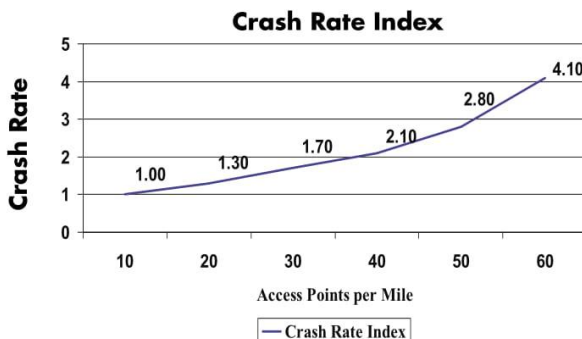

More efficient traffic flow and improved safety are two of the biggest benefits of access management.

**Crash Rates for Median Treatments  
Florida Crash Study**

The University of Florida conducted a statewide study of all urban and suburban multi-lane state highways. This study showed that there were significant safety improvements for roads with restrictive medians.

In another access management project on State Road 436 in Seminole County, Florida, crash statistics were compared for the three years before and the three years after the project. **It was determined that the overall number of accidents was reduced by 35 %; the number of injuries by 29%; and the number of angle and left turn crashes (which are usually more serious) by 58%.** And this was despite a significant increase in the average daily traffic.

In the national study done by the Transportation Research Board, crash data showed a strong relationship between the access points per mile and the crash rate. There are generally 2.1 times more crashes when you increase access points from 10 to 40 per mile.

The access spacing implications are clear. Increasing the spacing between access points and providing greater separations of conflicts will reduce the number and variety of events to which drivers must respond. **This translates into fewer accidents, as well as shorter delays.**

NCHRP Report 420 "Impacts of Access Management Techniques" 2000

# U-TURNS

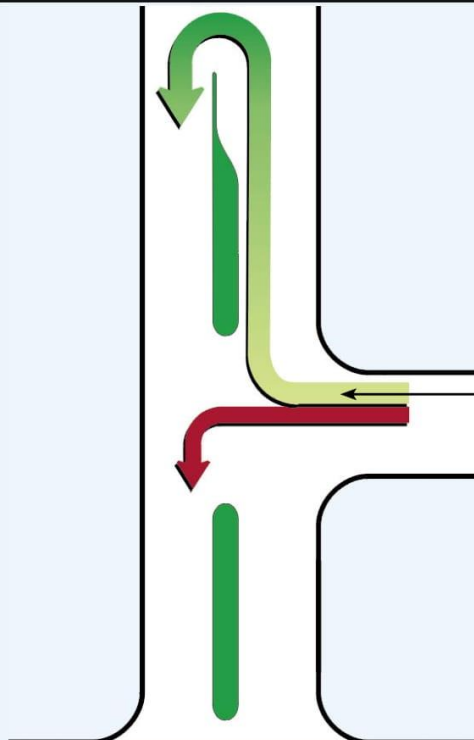

## Will customers make U-turns to access businesses?

Yes, and the latest studies show U-turns are a safe alternative to direct left turns.

A study in Orlando shows most customers do not find U-turns an inconvenience

The answer to this question is an overwhelming yes. The most recent research on the safety of U-turns reveals that crashes causing injuries are reduced by more than 25% through encouraging right turns followed by U-turns, compared to direct left turns. Surveys of motorists have shown that a vast majority of them have no problem making U-turns to access businesses. In fact, most felt that access management improvements make roads safer and approve of the changes, despite minor inconveniences associated with U-turns. FDOT carefully evaluates U-turn locations and makes minor roadway improvements where needed to accommodate U-turning traffic. Some large vehicles, of course, may need to take alternate routes as U-turns can be very difficult for some larger trucks.

**18%**

total crash rate reduction

**27%**

injury fatality crash rate reduction

John Lu, Ph.D., P.E. University of South Florida 2001

U-turns are often much safer than direct left turns, especially on high volume, high speed, or congested roadways.

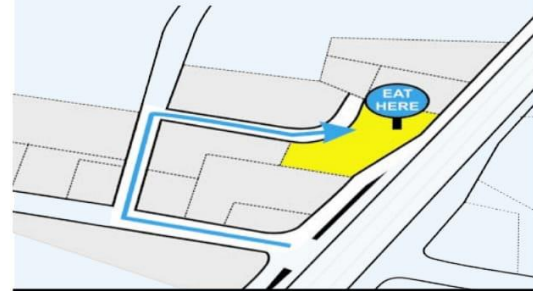

# INTERCHANGES

## Why is access management critical in interchange areas?

FDOT places a special emphasis on access management in the vicinity of interchanges. The main purpose of an interchange is to move large volumes of traffic between a freeway and the cross street. It is the interface between the high-speed freeway and lower speed crossroad. If there are intersections and/or driveways in close proximity to the interchange ramps, the efficient functioning of the interchange can deteriorate. Usually driveways located just after a ramp are difficult to get into or out of, and many have extensive accident history. The resulting congestion near ramps can cause crashes and problems not only on the crossroad but also on the freeway. In order to preserve the capacity and safety of the interchange, the area surrounding the interchange must be free of conflicting movements.

Congestion near ramps can cause crashes and problems on the freeway or Turnpike.

Many restaurant chains have learned that being in the right "vicinity" is more important than direct access

# TRUCKS

## Are trucks considered in the evaluation?

Many businesses depend on trucks for deliveries and other functions. We also realize that many trucks are not typically able to make certain movements (such as U-turns). We strive to develop a plan that will accommodate truck access to businesses in a manner as convenient as possible. Sometimes this will require that trucks follow a slightly different route to arrive at the property.

Yes, trucks are always taken into consideration.

**90%** of truck operators in a south Florida study felt that access management improvements improved safety

District 4: Traffic Operations Freddie Vargas

### Business Owner's Opinions

**64%** felt no inconvenience to trucks

Even merchants and truck delivery staff felt access management was an improvement

# Access Management

## Just think about

the corridors in your community that have well designed access management versus the one with poor access management. Which one do you like to travel on and which ones have the most vibrant businesses?

Access Management helps us preserve your investment in our highways and your business

## S.R. 423 (John Young Parkway) from S.R. 50 to Shader Road

# PUBLIC MEETING

Financial Project ID: 239496-3-52-01

January 16, 2018

---

Good evening and welcome to the Public Information Meeting for the State Road 423 John Young Parkway widening project. Carlton Daley is the Florida Department of Transportation's Project Manager. The purpose of tonight's open house is to share information about the construction project and to provide time to answer questions with interested parties. You are encouraged to view the exhibits located around the room and ask questions. If you did not receive a project information flier previously in the mail, please feel free to take one from the sign-in table.

**The Florida Department of Transportation complies with various non-discrimination laws and regulations, including Title VI of the Civil Rights Act of 1964, and Title VIII of the Civil Rights Act of 1968, as amended.**

**Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons wishing to express their concerns relative to FDOT compliance with Title VI and/or Title VIII may do so by contacting:**

**DeLand Office  
Florida Department of Transportation  
District Five Title VI Coordinator  
Jennifer Smith  
719 South Woodland Boulevard  
DeLand, Florida 32720  
(386) 943-5367  
jennifer.smith2@dot.state.fl.us**

**Tallahassee Office  
Florida Department of Transportation  
State Title VI Coordinator  
Jacqueline Paramore  
605 Suwannee Street, Mail Station 65  
Tallahassee, Florida 32399-0450  
(850) 414-4753  
jacqueline.paramore@dot.state.fl.us**

This meeting is being held to afford all citizens the right to understand the project and comment on concerns to the Florida Department of Transportation. The meeting is being held to comply with Title VI of the Civil Rights Act of 1964, and Title VIII of the Civil Rights Act of 1968, as amended.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons wishing to express their concerns relative to FDOT compliance with Title VI and/or Title VIII may do so by contacting the FDOT, District Five, Title VI and VIII Coordinator Jennifer Smith, 719 South Woodland Boulevard, DeLand, Florida 32720 or the FDOT, State Title VI Coordinator, Jacqueline Paramore, 605 Suwannee Street, Room 260, Mail Station 65, Tallahassee, FL 32399-0450. All inquiries or complaints will be handled according to FDOT procedure and in an expeditious manner.

Florida Department of  
TRANSPORTATION

## Project Limits

The limits of the project are from State Road 50/West Colonial Drive to Shader Road.

## **Improvements include:**

- **Widen from 4 lanes to 6 lanes**
- **Milling and resurfacing**
- **Two new ponds**
- **Lighting upgrades**
- **Intelligent transportation system (ITS) improvements**
- **Sidewalk, curb and gutter, signal and drainage system improvements**
- **New signing and pavement markings**

This project consists of widening John Young Parkway from a four-lane to a six-lane divided roadway section to provide additional capacity for future traffic volumes. The project work also includes new pavement, milling and resurfacing, pavement widening, curb and gutter, drainage system improvements, two (2) new ponds, sidewalks, lighting, signing and pavement markings, intelligent transportation system (ITS) improvements, and signals.

## URBAN TYPICAL SECTION: West Colonial Drive to Technology Drive

**FDOT** Florida Department of Transportation

 Widening

This is an exhibit showing the urban typical section for John Young Parkway from West Colonial Drive to Technology Drive. Significant improvements include the construction of a new southbound lane and a new 8-foot sidewalk on the east side of the roadway.

## HIGH-SPEED URBAN TYPICAL SECTION: Technology Drive to Lynx Lane

This is an exhibit showing the high-speed urban typical section for John Young Parkway from Technology Drive to Lynx Lane. Significant improvements include the construction of an additional northbound and southbound lane, the addition of bike lanes, and a wider inside shoulder.

## URBAN TYPICAL SECTION: Lynx Lane to Shader Road

This is an exhibit showing the urban typical section for John Young Parkway from Lynx Lane to Shader Road. Significant improvements include the construction of an additional northbound and southbound lane and the addition of bike lanes.

## PROPOSED MEDIAN MODIFICATIONS

Location	Existing Openings	Proposed Change
Technology Drive	Full	Directional
800 feet south of WD Judge Drive (Frito Lay)	Full	Directional
Between WD Judge Drive & Princeton Street (about 700 feet north of WD Judge Drive)	Full	Closed
Between WD Judge Drive & Princeton Street (about 1,000 feet north of WD Judge Drive)	None	Directional
Between WD Judge Drive & Princeton Street (about 1,500 feet north of WD Judge Drive)	Full	Closed
North of Railroad Crossing	Full	Directional
400 feet south of Hazelhurst Avenue	None	Directional
Hazelhurst Avenue	Full	Closed

The following locations will have median modifications as part of access management. One of the most important responsibilities of FDOT is to ensure that each state roadway is designed to provide a safe travel way for the motoring public, as well as pedestrians and bicyclists who use the roadway.

A major component of that safety involves the proper balance between access and mobility. Access Management is used to provide this very important balance. The process for determining the final location and type of median openings for this project was long and detailed. FDOT guidelines were followed that apply to similar roadways throughout the state.

## **Project Schedule**

- **Start Date: January 8, 2018**
- **Estimated Completion: Spring 2020**
- **Construction Cost: \$28 million**

---

The construction on this project is scheduled to begin January, 8 2018 and is estimated to be completed in spring 2020. The estimated construction cost is \$28 million.

**COMMENTS:**

I live in the Rosemont neighborhood. Our  
gateway roads are Orange Blossom Trail and  
John Young Parkway and Lee Road. We are  
constantly calling both FDOT and its landscape/  
maintenance contractor about the lack of  
maintenance of the swales on Orange Blossom  
Trail and John Young Parkway. Mr. Charles  
Heffington has been working with us on  
these issues. He assured the Lake Orlando  
HOA that when John Young Parkway was  
widened the road would have curb and gutter.

PLEASE COMPLETE THE COMMENT SHEET DURING THE MEETING AND DROP OFF AT THE DOOR BEFORE YOU LEAVE OR TAKE THE COMMENT SHEET WITH YOU TO COMPLETE, FOLD, TAPE (DO NOT STAPLE), ADD FIRST CLASS POSTAGE AND MAIL NO LATER THAN FEBRUARY 6, 2018.

~~FEAR~~

as well as a stormwater system that would eliminate the unsightly swales. No one at the City of Orlando advised us of any public meeting to provide input into the project.

Based upon representation of FDOT + its contractors, We expected ~~and~~ urban look just like Lee Road and John Young Parkway south of Colonial Drive. The widening of John

FOLD

Young Parkway and not urbanizing the stormwater in this section is the only part of John Young Parkway that will still have unsightly swales. The swales hurt our property values because of the lack of maintenance.

RE: State Road (S.R.) 423/John Young Parkway widening from S.R. 50 to Shader Road Public Meeting – Comment Response

Dear Ms. Vargo,

Thank you for attending the S.R. 423/ John Young Parkway public meeting on January 16, 2018 and submitting your comments to us regarding the drainage swales. We appreciate your feedback.

Mr. Charles Heffinger, Orlando Operations Engineer with the Florida Department of Transportation (FDOT), recalls mentioning curb and gutter would be a part of this project, and the improvements will provide a curb and gutter section throughout the limits of the corridor. The project will also incorporate new piped drainage systems to collect roadway runoff and convey stormwater to the two new stormwater ponds. However, many of the existing swales must remain in place in the future condition to accommodate offsite flows from the areas surrounding the project.

Large offsite areas drain toward John Young Parkway in the southern portion of the project. A new storm drain system conveys roadway runoff to the new stormwater pond. However, the existing roadside swales are necessary to convey stormwater runoff from the adjacent offsite areas to an existing drainage canal located between WD Judge Drive and Princeton Street. Eliminating the ditches and utilizing a closed drainage system for offsite flows would result in substantial costs for large pipes exceeding 60 inches (5 feet) in diameter. Removing these swales would also eliminate significant storage for larger storm events and would result in significant wetland and floodplain impacts.

Between Lynx Lane and the railroad crossing located north of Silver Star Road, an existing storm drain system conveys runoff south toward the proposed ponds. The project area located north of the railroad crossing is currently drained by a series of roadside ditches that tie into the existing storm drain system. Eliminating the ditches and providing a new storm drain system within the northern portion of the project would require the reconstruction of the existing storm drain system between Lynx Lane and the railroad crossing. Reconstructing this system would cause significant impacts including increased construction costs, added costs for major utility

adjustments located in the Silver Star vicinity, greater impacts to the motorists during construction, and many other impacts.

During the project, the construction engineering and inspection (CEI) firm will be responsible for the maintenance of the construction limits, and the construction staff will partner with the contractor, Southland Construction, to ensure the project's aesthetics are preserved. After the project is completed, the maintenance staff at FDOT Orlando Operations will work with the maintenance contractor to ensure the swales and surrounding aesthetics are maintained.

We hope you find this information helpful. RE: State Road (S.R.) 423/John Young Parkway widening from S.R. 50 to Shader Road Public Meeting – Comment Response

Dear Mr. Elman,

Thank you for attending the S.R. 423/ John Young Parkway public meeting on January 16, 2018 and sharing your concerns with us. We appreciate your feedback.

We wanted to respond to you regarding your comments about more traffic and noise, as well as lack of privacy, due to the widening.

The project development phase for a project such as this is the first step in the life of a project, and occurs years before the actual construction begins. Noise levels for the project's design year (2024) were predicted using the Federal Highway Administration's (FHWA) Traffic Noise Model. The modeling uses the traffic level that generates the maximum noise level the roadway can produce (Level of Service "C" Traffic). This maintains the validity of the analysis over time as long as there are no major changes to the project's design that would affect noise levels. There have been no significant changes in the project design. Noise levels meeting the criteria for consideration of noise abatement for the homes along Symphony Court were not reached in the analysis. This is because the homes along Symphony Court are about 200 – 300 feet from the nearest travel lane. This does not mean the residents cannot hear the traffic; only that the future predicted noise levels will not trigger the noise abatement criteria. These criteria are set by the FHWA.

These types of projects normally do not change noise levels significantly. A general rule is that if the distance from the roadway to a home is cut in half, noise levels will increase by about 4 decibels. As a result of this project, the nearest travel lane will be 10 feet closer to homes. The average increase in future noise levels for the homes along Symphony Court is predicted to be 2.2 decibels, largely due to future predicted traffic increases. The average person begins to detect a change when the difference between two noise levels is 3 decibels, so this change due to the project should be inaudible to the average person.

As for the privacy concerns, the Florida Department of Transportation (FDOT) has determined there is not enough right of way to add landscaping. The policy is to have 5 feet of clearance area

*Florida Department of Transportation*

around landscaping for maintenance purposes, and there is less than a foot between the top of the bank of the drainage ditch to the right of way line for most of the area. Also, landscaping cannot be planted within the drainage ditch. Therefore, there will be no clearing outside of the John Young Parkway right of way, and the undeveloped parcel providing shielding between John Young Parkway and Spring Lake will remain.

**COMMENTS:**

Concerned about the sound barrier. What is existing is not sufficient for the additional lanes of traffic & fast traffic proposed. Increased traffic will absolutely increase the noise, which we already hear loud & clear. We are petitioning for a wall ~~one~~ to be placed to keep the sound out & keep the property values of our homes consistent. The proposal will bring the lanes of traffic closer to our homes & we need something to offset. Thank you.

RE: State Road (S.R.) 423/John Young Parkway widening from S.R. 50 to Shader Road Public Meeting – Comment Response

Dear Ms. Arnold,

Thank you for attending the S.R. 423/ John Young Parkway public meeting on January 16, 2018 and sharing your concerns with us. We appreciate your feedback.

We wanted to respond to you regarding your comments about wanting a noise/safety barrier that runs parallel to Symphony Court.

At this time, the Florida Department of Transportation (FDOT) has determined there are no impacts that would trigger the assessment of noise abatement barriers for this project.

The project development phase for a project such as this is the first step in the life of a project, and occurs years before the actual construction begins. Noise levels for the project's design year (2024) were predicted using the Federal Highway Administration's (FHWA) Traffic Noise Model. The modeling uses the traffic level that generates the maximum noise level that the roadway can produce (Level of Service "C" Traffic). This maintains the validity of the analysis over time as long as there are no major changes to the project's design that would affect noise levels. There have been no significant changes in the project design. Noise levels meeting the criteria for consideration of noise abatement for the homes along Symphony Court were not reached in the analysis. This is because the homes along Symphony Court are about 200 – 300 feet from the nearest travel lane. This does not mean the residents cannot hear the traffic, only that the future predicted noise levels will not trigger the noise abatement criteria. These criteria are set by the FHWA.

These types of projects normally do not change noise levels significantly. A general rule is that if the distance from the roadway to a home is cut in half, noise levels will increase by about 4 decibels. As a result of this project, the nearest travel lane will be 10 feet closer to homes. The average increase in future noise levels for the homes along Symphony Court is predicted to be 2.2 decibels, largely due to future predicted traffic increases. The average person begins to detect a change when the difference between two noise levels is 3 decibels, so this change due to the project should be inaudible to the average person.

**COMMENTS:**

My wife, daughter, and I live at ~~1412~~ in the Spring Lake  
Neighborhood. We are very concerned about the noise from  
this project, and insist on a sound barrier to protect  
the property value of our house, and to decrease the  
noise level.

RE: State Road (S.R.) 423/John Young Parkway widening from S.R. 50 to Shader Road Public Meeting – Comment Response

Dear Mr. Gentry,

Thank you for attending the S.R. 423/ John Young Parkway public meeting on January 16, 2018 and sharing your comments about the need for a right turn lane on Silver Star Road. We appreciate your feedback.

It was determined early in the design phase, construction of this widening project could be advanced if it could be constructed within the corridor's existing right of way. The addition of a right turn lane from eastbound Silver Star Road to southbound John Young Parkway would have required the acquisition of a private parcel owned by the Frito-Lay Company. To keep the project moving forward to construction without right of way take(s) and schedule delays related to property acquisition, the right turn lane improvement at this intersection was not included in the plans.

However, although the right turn lane was not included as part of this project, it does not mean that this improvement will not occur. The Department regularly analyzes the operations of intersections throughout the state. Once the need becomes apparent, these types of improvements are often made under other design contract intended for such operation improvements. Additionally, we will have the contractor work with the City to adjust the proposed signal timings to optimize this movement through the intersection.

We hope you find this information helpful.
