Current Context Classification Review

Current Context Class Determination:	92070000	C2	Begin Mile Point:	0.113	End Mile Point:	6.931
--------------------------------------	----------	----	-------------------	-------	-----------------	-------

Current Context Classification Determination Notes:

The roadway segment from SR 60 mile point 0.113 (Bridge #160216) to mile point 6.931 (north of Blanket Bay Slough) is C2 Rural because it is mostly sparsely settled land that contains agriculture and woodlands, no consistent pattern of setbacks, and intersection density of fewer than 20 intersections/square mile.
