

General Information AD# 27509 Intermodal Systems Development Office Continuing Services Contract

DISTRICT FIVE INTERMODAL SYSTEMS DEVELOPMENT OFFICE

This continuing services contract will support the Intermodal System Development office (ISD) by providing a comprehensive range of transportation planning, engineering, and environmental documentation services. Primary responsibilities will include Project Development and Environment (2.0) and Systems Planning (13.4), with work efforts focused on advancing multimodal transportation solutions through data-driven analysis, coordinated planning, and the preparation of supporting environmental and engineering documentation. Public involvement and interagency coordination will be conducted as required to support the planning and project development process. These services will support informed decision-making, ensure regulatory compliance, and guide long-range system development and infrastructure investment.
