

BRIDGE WORK

S.R. 40 Movable Bridge Rehabilitation

Volusia County

**Financial Project
Identification
(FPID) No.:**
449792-1

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) is making improvements to the State Road (S.R.) 40 movable bridge that crosses the St. Johns River in Astor.

Planned work includes installing a new emergency backup generator and upgrading machinery, including span locks and brakes. A span lock is a mechanical system that typically holds a movable bridge span in place when fully closed. The project also includes a new control system designed to enhance the bridge's efficiency and overall operations.

WHAT TO EXPECT

During construction, the bridge will remain open to traffic however, motorists should expect intermittent daytime and nighttime single-lane and double-lane closures with flagging operations to accommodate work activities

The posted speed limit of 45 mph will stay in effect, and sidewalks will be closed during construction.

Electronic message boards and other signage will direct traffic through the work zone. The level of work activity and noise will vary during different construction phases. Please note that the construction schedule is subject to change due to inclement weather or other unforeseen circumstances. For the most current project details and lane-closure information, please visit FDOT's Central Florida website at www.cflroads.com.

CONTRACTOR

Seacoast Inc.

PROJECT COST

\$5.6 million

PROJECT START

January 2026

ESTIMATED COMPLETION

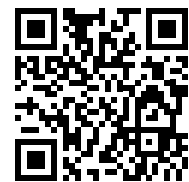

Summer 2026
