

Intersection Improvements

- U.S. 1 from South of Smith Street to Julia Street
- Canal Street from Dimmick Street to Orange Street

New Smyrna Beach, Volusia County

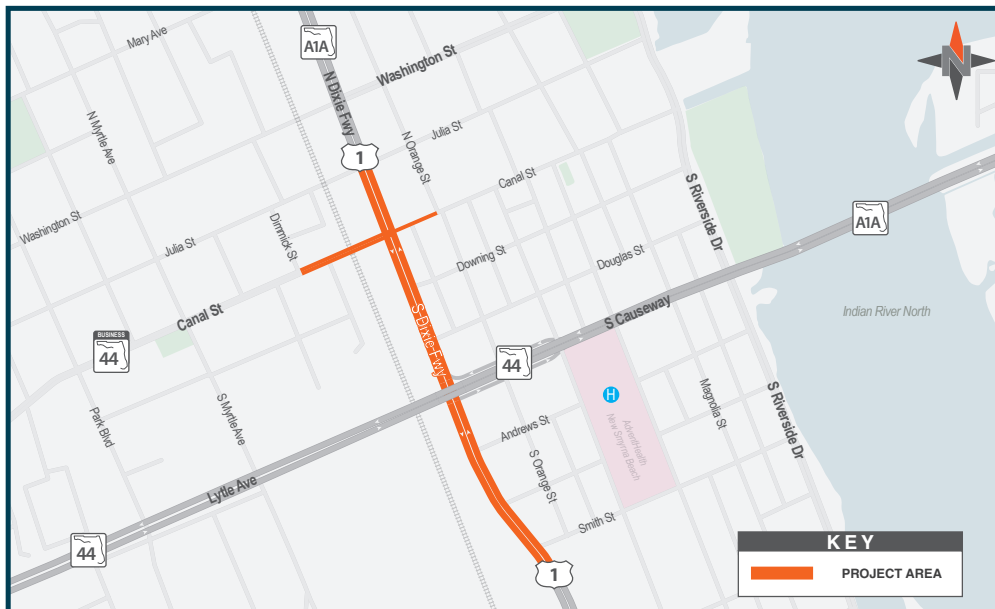

Financial Project Identification No.: 240992-5

Project Description

The Florida Department of Transportation is constructing intersection improvements along U.S. 1 (Dixie Freeway) from south of Smith Street to Julia Street, and on Canal Street from Dimmick Street to Orange Street in New Smyrna Beach, Volusia County. The improvements include resurfacing, widening, curb and gutter, drainage improvements, sidewalk, signalization, lighting, and water and sewer work.

As part of the project, a second left turn lane from northbound U.S. 1 onto westbound Canal Street, and a new right turn lane from southbound U.S. 1 to westbound Canal Street will be created. A new merge lane also will be constructed on westbound Canal Street from U.S. 1 to just east of Dimmick Street, and designated bike lanes will be created along U.S. 1. Additionally, Andrews Street will be converted to a one-way roadway heading eastbound from U.S. 1 to the first driveway.

Project Location

Impact to Motorists

The project will require nighttime lane closures on U.S. 1 and Canal Street. Motorists also can expect weekend road closures with detours to complete the improvements to the Lytle Avenue ramps, and to construct a new drainage structure on Andrews Street. Road closures and detours to complete the work on Canal Street are limited to weekday nights between the hours of 10 p.m. and 5 a.m. No detours will be permitted during scheduled City of New Smyrna Beach events that close Canal Street.

Electronic message boards will be used to alert drivers of lane closures and detours.

Pedestrian and Bicycle Safety

This work will require sidewalk closures and creation of temporary pedestrian access routes. The FDOT urges all pedestrians and cyclists to use caution around the work zone. Signs will be used to safely guide and direct bicyclists and pedestrians around the work area.

At A Glance

Contractor:

Masci General Contractors Inc.

Project Cost:

\$5 million

Project Start:

March 2019

Estimated Completion:

Late 2020
