PUBLIC INVOLVEMENT PLAN
State Road (S.R.) 60 Project Development and
Environment (PD&E) Study
from Prairie Lake Road to Florida's Turnpike
Osceola County, Florida

The purpose of this Public Involvement Plan (PIP) is to assist in providing information to and obtaining input from concerned citizens, agencies, private groups (residential/business), and governmental entities. The overall goal of this plan is to help ensure that the study reflects the values and needs of the communities it is designed to benefit. A schedule of events and a list of documentation exhibiting compliance with these procedures are included.

This plan is in compliance with the Florida Department of Transportation's Project Development and Environment (PD&E) Manual, Part 1, Chapter 11.

I. DESCRIPTION OF PROPOSED IMPROVEMENT

Financial Management Number:	<u>452574-1-22-01</u>
Federal Aid Project Number:	<u>N/A</u>
Project Limits:	<u>from Prairie Lake Road to Florida's Turnpike</u>
Proposed Activity:	<u>PD&E Study</u>
Class of Action:	<u>Type 2 CE</u>

II. PROJECT BACKGROUND

The Florida Department of Transportation (FDOT) District V is conducting a Project Development and Environment (PD&E) Study for improvements on State Road (S.R.) 60 from Prairie Lake Road to Florida's Turnpike in Osceola County, Florida. This project is within the jurisdiction of the MetroPlan Orlando Transportation Planning Organization (TPO). This PD&E Study will evaluate the existing roadway from two to four lanes from Prairie Lake Road to Florida's Turnpike. Within the approximately 20-mile corridor, S.R. 60 is a two-lane undivided rural principal arterial that runs in an east and west direction with a posted speed of 60 miles per hour. There are no transit facilities or dedicated bicycle and pedestrian facilities.

S.R. 60 is part of the Florida Strategic Intermodal System (SIS), is designated by MetroPlan Orlando as a Regional Freight Mobility Corridor and is designated by the Florida Department of Emergency Management as an evacuation route.

III. PROJECT GOALS

This study will look at adding capacity to S.R. 60 to help ease traffic congestion and improve safety. This will also prove valuable when the roadway is used as an evacuation route.

The goal during this study will be to use several techniques to maximize existing public information resources to promote a higher level of public participation. Public engagement for the study will include a stakeholder meeting and project kickoff newsletter to give the public details of the project and offer avenues for public feedback. The public involvement effort will ensure receipt of constructive recommendations to be used in the development of the alternatives.

This project will not include an alternatives public meeting, only a public hearing.

IV. IDENTIFICATION OF ELECTED OFFICIALS AND AGENCIES

The following local, regional, state, or federal agencies having a concern in this project due to jurisdictional review or expressed interest have been identified and will be contacted directly by the Florida Department of Transportation (FDOT) through the Advance Notification (AN) process at the outset of the project in accordance with the PD&E Manual, Part 1, Chapter 3, Preliminary Environmental Discussion and Advance Notification. As other concerned public agencies are identified throughout the study, they also will be listed and contacted.

State: Florida Department of Agriculture and Consumer Services, Vincent Morris, Resource Administrator
Florida Department of Agriculture and Consumer Services, Brian Camposano, Assistant Chief of Forest Management
Florida Department of Economic Opportunity, Matt Preston, Planning Analyst
Florida Department of Environmental Protection, Daniel Alsentzer, Planning Manager
Florida Department of Environmental Protection, Chris Stahl, Clearinghouse Coordinator
Florida Department of State, Division of Historical Resources, Alissa Lotane, Director of Historical Resources / State Historic Preservation Officer
Florida Department of State, Division of Historical Resources, Alyssa McMannus, Historian/Historic Preservation Planner
Florida Department of Transportation, District 5, Letitia Neal, ETDM Coordinator
Florida Department of Transportation, Environmental Management Office, Katasha Cornwell, State Environmental Process Administrator
Florida Department of Transportation, Environmental Management Office, Thu-Huong Clark, Environmental Programs Coordinator
Florida Fish and Wildlife Conservation Commission - Office of Conservation Planning Services, William Burnett, Director of Conservation Planning Services
Florida Fish and Wildlife Conservation Commission - Office of Conservation Planning Services, Jennifer Goff, Deputy Director of Habitat and Species

Federal: U.S. Army Corps of Engineers, Cocoa Regulatory Office, Lt. General William "Butch" Graham, Jr., Chief
U.S. Army Corps of Engineers, Veronica del Carmen Beech, Project Manager

U.S. Army Corps of Engineers, Lisa Lovvorn, Chief, Panama City Permits Section
 U.S. Department of Agriculture – Natural Resources Conservation Service, Joel Salinas, Soils Conservationist

Kelvin Soto	Court of Circuit Clerk
Linette Matheny	County Engineer
Christina Colon	Transportation & Transit Director
Gary Yeager	Traffic Operations Director
William "Bill" Litton	Emergency Management Director
Larry Collier, Jr.	Fire Chief
Mehul Parekh	Public Works Director
Raymond Stangle	Community Development Administrator
Amanda Clavijo	Community Development

V. IDENTIFICATION OF AFFECTED COMMUNITIES AND STAKEHOLDERS

This project traverses through a rural area of Osceola County, Florida. The demographic information for the study area was obtained through a Sociocultural Data Report (SDR) analysis. A copy of the SDR is attached to this PIP. Based on the demographics of the study area, there are only a handful of residents in the area. All residents in the study are white, over 65 years old, with a median income well above the state average for families.

The following local, state, and national public interest groups or organizations having a direct or expressed interest in the project study have been identified and will be contacted by the Florida Department of Transportation (any local neighborhood associations).

MetroPlan Transportation Planning Organization –
Alex Trauger, Director of Transportation Planning
Virginia Whittington, Director of Regional Partnerships
Gary Huttman, Executive Director
Eric Hill, Director of Transportation System Management & Operations
Osceola Chamber of Commerce –
John Newstreet, President & CEO
Cindy Lewis, Executive Vice President
Toho Water Authority
Todd Swingle, Chief Executive Officer
Chuck Weber, Operations Vice President
John Fogarty, Assets and Infrastructure Vice President

VI. OUTREACH ACTIVITIES

The following techniques will be used to notify the public of the proposed transportation improvement

and to solicit public input into the project development process.

In addition to working with the media, a number of different notification techniques will be used throughout the project development process. A brief description of these techniques is provided below.

Letters/Newsletters:

A project newsletter will be distributed to elected and appointed officials, property owners/tenants, business owners/operators, and interested parties at the beginning of the project. Informational letters and a project handout will be distributed to all above groups for the public hearing.

News/Press Releases:

A news/press release will be submitted to the FDOT to send out at

least seven days prior to the public hearing. While the project team will handle the newspaper ads, the media outreach will be done by the District Communications Office.

Public Notices/Ads:

Public advertisements will be published in the area newspaper with the largest circulation twice before the Public Hearing.

Public Announcements:

In order to distribute PD&E information, fliers will be made available to organizations such as neighborhood/civic groups, the FDOT, and Osceola County, to publish in existing newsletters and websites. Any such correspondence will be coordinated through the District's Public Information Office (PIO).

Direct Mail List for Public Hearings:

The following will be contacted by direct mail in order to obtain input throughout the project development process and/or in order to provide project information:

- Those whose property lies, in whole or part, within at least 300 feet on either side of the centerline of each project alternative (Section 339.155, F.S.), as well as other local citizens who may be impacted by the construction of this project. This portion of the mailing list will be based on the County Property Appraiser's tax rolls.
- Local elected and appointed public officials or individuals who request to be placed on the mailing list for this project.
- Public and private groups, organizations, agencies, or businesses that request to be placed on the mailing list for this project.

Techniques:

Presentations to Local Officials: Presentations will be given to local officials and agencies such as the MPO prior to the Public Hearing to apprise local officials of the project status, specific location, and design concepts, and to receive their comments.

Public Hearing: A formal public hearing, as required by federal regulations and state law, will be held.

Informal Meetings: FDOT will be handling any additional stakeholder meetings associated with the study.

Project Website: All information will be available on the project website at www.cflroads.com/project/452574-1.

Public Outreach Activity Schedule:

VII. PUBLIC HEARING

In compliance with the Project Development and Environment (PD&E) Manual, 23 CFR 771, and Section 339.155, F.S., a public hearing will be held.

Public Hearing Site: The public hearing will be held at an appropriate facility convenient to the study area.

Public Advertisement: An advertisement will appear in the Orlando Sentinel – Osceola Edition twice (at least 15 days and no more than 30 days) prior to the public hearing.

Orlando Sentinel – Osceola Edition (unless FDOT prefers Osceola News Gazette)
PO Box 2833
Orlando, FL 32802
407-420-5000

All advertisements will be sent to local newspaper(s) via e-mail or by registered mail, return receipt requested.

In addition, an announcement of the public hearing will be published in the **Florida Administrative Register** at least 7 days prior to the public hearing.

Letters of Invitation: Letters will be mailed to all property owners as required by Section 339.155, F.S., and to local elected and appointed government officials notifying them of the upcoming hearing.

Hearing Preparation: Slide presentations and/or video presentations, project corridor aerial maps, graphics, and handouts will be prepared to supplement the oral public hearing presentation.

Transcript:	A verbatim transcript of the public hearing will be compiled to include written comments received at the hearing and written comments received within the established comment period after the hearing. All public hearing documentation (handouts, presentation, graphics, etc.) will be included with the transcript. The transcript will include a script of the recorded presentation, if applicable.
Documents for Public Review:	All draft documents (hard copies) to support the PD&E study's evaluation will be available for public review at least 21 calendar days prior to the public hearing date.
Locations of Documents for Public Review:	Public notice will be provided in the public hearing advertisement and by mailed invitational letters as to where the study documents are located for public review.
Title VI and Related Statutes:	Information about the Title VI Program will be provided in the presentation, by handout, signage, and through availability of personnel, on the Title VI Program and the Relocation Assistance Program.
Americans with Disabilities Act Compliance:	Notification of the Department's intent to comply with the Americans with Disabilities Act (ADA) will be provided in the public advertisements for the public hearing, in invitational letters to property owners/tenants and local officials, in handouts, and by selection of a public hearing site that meets ADA requirements.
Public Hearing Documents:	All public hearing information (date, time, etc.), documents for public review, and the hearing materials will be available on the project website.

VIII. PUBLIC HEARING FOLLOW-UP

The following procedures will occur after the public hearing.

Responses:	Responses to letters received as a result of the hearing and questions and comments not answered at the public hearing will be made in writing.
Recommendation:	A legal notice announcing the Office of Environmental Management's (OEM's) approval of the final document and recommendations will be published in the Orlando Sentinel – Osceola Edition newspaper.
Public Hearing Transcript Package:	A Transcript Package will be produced and submitted following the public hearing. The Transcript Package will include verbatim hearing transcript prepared by an approved court reporter, an errata sheet detailing any

transcript discrepancies, a copy of correspondence received by the Department as part of the public hearing record, and affidavits of publication for newspaper ads advertising the hearing.

Public Involvement

Summary:

A public involvement summary will be produced and submitted at the conclusion of the study, containing, at a minimum, documentation regarding public participation performed throughout the study period. This summary will include comments and responses received from the public, as well as Advance Notification, coordination with local officials and agencies, and public meetings; the verbatim transcript from the public hearing; proof of publication of ads; sign-in sheets; public hearing certification by the Project Manager (Moderator); and public comments.

IX. PUBLIC INVOLVEMENT DURING DESIGN

To the extent public involvement activities are necessary in the Design phase, the Design Project Manager will be responsible to coordinate any such activities.

Community Facilities

The community facilities information below is useful in a variety of ways for environmental evaluations. These community resources should be evaluated for potential sociocultural effects, such as accessibility and relocation potential. The facility types may indicate the types of population groups present in the project study area. Facility staff and leaders can be sources of community information such as who uses the facility and how it is used. Additionally, community facilities are potential public meeting venues.

Housing Tenure - Osceola

Data Sources

ACS vs Census Data

(1) The 2010 and 2020 Census data is represented by a combination of decennial and ACS data. The 2010 decennial is combined with the 5-year ACS data for 2006-2010 and the 2020 decennial is combined with the 5-year ACS data for 2016-2020. The General Population Trends, Race and Ethnicity Trends, and Age Trends are entirely from the decennial. The Income Trends, Disability Trends, Educational Attainment Trends, and Language Trends are entirely from the ACS. The Housing Trends section is derived from both: Decennial (Total # Housing Units, Housing Units per Acre, Owner-Occupied Units, Renter-Occupied Units, Vacant Units); ACS (Single-Family Units, Multi-family Units, Mobile Homes, Median Housing Value, Occupied Housing Units w/No Vehicle).

Area

(2) The geographic area of the community based on a user-defined community boundary or area of interest (AOI) boundary.

Jurisdiction

(3) Jurisdiction(s) includes local government boundaries that intersect the user-defined community or AOI boundary.

Goals, Values and History

(4) Information under the headings Goals and Values and History is entered manually by the user before the Sociocultural Data Report (SDR) is generated. This information is usually not available for communities with boundaries that are based on Census-defined places (i.e., not user-specified).

Demographic Data

(5) Demographic data reported under the headings General Population Trends, Race and Ethnicity Trends, Age Trends, Income Trends, Educational Attainment Trends, Language Trends, and Housing Trends is from the U.S. Decennial Census for 1990 and 2000 and the American Community Survey (ACS) 5-year estimates for 2006-2010 and . The data was gathered at the block group level for user-defined communities, Census places, and AOIs, and at the county level for counties. Depending on the dataset, the data represents 100% counts (Census Summary File 1) or sample-based information (Census Summary File 3 or ACS). For more information about using demographic data, please see the training videos located here: <https://www.fdot.gov/environment/pubs/sce/sce1.shtm>.

About the Census Data

(6) The block group analysis for ETDM project analysis areas, user-defined communities, Census places, and AOI boundaries do not always correspond precisely to block group boundaries. To estimate the actual population more accurately, the SDR analysis adjusts the geographic area and data of affected block groups using the following methodology:

Delete overlapping census blocks with extremely low populations (2 or fewer people)
Remove the portion of the block group that lies outside of the analysis area
Recalculate the demographics assuming an equal area distribution of the population

Note that there may be areas where there is no population.

(7) Use caution when comparing the 100% count data (Decennial Census) to the sample-based data (ACS). In any given year, about one in 40 U.S. households will receive the ACS questionnaire. Over any five-year period, about one in eight households will receive the questionnaire, as compared to about one in six that received the long form questionnaire for the Decennial Census 2000. (Source: https://www.census.gov/content/dam/Census/programs-surveys/acs/news/10ACS_keyfacts.pdf) The U.S. Census Bureau provides help with this process: <https://www.census.gov/programs-surveys/acs/guidance/comparing-acs-data.html>

(8) Race and ethnicity are separate questions on the Census questionnaire. Individuals can report multiple race and ethnicity answers; therefore, numbers in the Race and Ethnicity portion of this report may add up to be greater than the total population. In addition, use caution when interpreting changes in race and ethnicity over time. Starting with the 2000 Decennial Census, respondents could select one or more race categories. Also in 2000, the placement of the question about Hispanic origin changed, helping to increase responsiveness to the Hispanic-origin question. Because of these and other changes, the 1990 data on race and ethnicity are not directly comparable with data from later censuses. (Source: <https://www.census.gov/library/publications/2001/dec/c2kbr01-01.html>)

(9) The "Minority" calculations use both the race and ethnicity responses from Census and ACS data. In this report, "Minority" refers to individuals who list a race other than White and/or list their ethnicity as Hispanic/Latino. In other words, people who are multi-racial, any single race other than White, or Hispanic/Latino of any race are considered minorities. We use the following formula: $MINORITY = TOTALPOP - WHITE_NH$ where TOTALPOP is the Total Population and WHITE_NH is the population with a race of White alone and an ethnicity of Not Hispanic or Latino. Translating this to the field names used in the census ACS source data, the formula looks like this: $MINORITY = B01003_E001 - B03002_E003$. (Note, the WHITE_NH population is not reported separately in this report.)

(10) Disability data is not included in the 2010 Decennial Census or the 2006-2010 ACS. This data is available in the ACS. Because of changes made to the Census and ACS questions between 1990 and ACS, disability variables should not be compared from year to year. For example: 1) with the 1990 data, the disabilities are listed as a "work disability" while this distinction is not made with 2000 or ACS data; 2) the ACS data includes the institutionalized population (e.g. persons in prisons and group homes) while this population is not included in 1990 or 2000; and 3) the age groupings changed over the years.

(11) The category Bachelor's Degree or Higher under the heading Educational Attainment Trends is a subset of the category High School Graduate or Higher.

(12) Income of households. This includes the income of the householder and all other individuals 15 years old and over in the household, whether they are related to the householder or not. Because many households consist of only one person, average household income is usually less than average family income.

(13) Income of families. In compiling statistics on family income, the incomes of all members 15 years old and over related to the householder are summed and treated as a single amount.

(14) Age trends. The median age for 1990 is not available.

Land Use Data

(15) The Land Use information Indicates acreages and percentages for the generalized land use types used to group parcel-specific, existing land use assigned by the county property appraiser office according to the Florida Department of Revenue land use codes.

Community Facilities Data

- (16) Assisted Rental Housing Units - Identifies multifamily rental developments that receive funding assistance under federal, state, and local government programs to offer affordable housing as reported by the Shimberg Center for Housing Studies, University of Florida.
- (17) Mobile Home Parks - Identifies approved or acknowledged mobile home parks reported by the Florida Department of Business and Professional Regulation and Florida Department of Health.
- (18) Migrant Camps - Identifies migrant labor camp facilities inspected by the Florida Department of Health.
- (19) Group Care Facilities - Identifies group care facilities inspected by the Florida Department of Health.
- (20) Community Center and Fraternal Association Facilities - Identifies facilities reported by multiple sources.
- (21) Law Enforcement Correctional Facilities - Identifies facilities reported by multiple sources.
- (22) Cultural Centers - Identifies cultural centers including organizations, buildings, or complexes that promote culture and arts (e.g., aquariums and zoological facilities; arboreta and botanical gardens; dinner theaters; drive-ins; historical places and services; libraries; motion picture theaters; museums and art galleries; performing arts centers; performing arts theaters; planetariums; studios and art galleries; and theater producers stage facilities) reported by multiple sources.
- (23) Fire Department and Rescue Station Facilities - Identifies facilities reported by multiple sources.
- (24) Government Buildings - Identifies local, state, and federal government buildings reported by multiple sources.
- (25) Health Care Facilities - Identifies health care facilities including abortion clinics, dialysis clinics, medical doctors, nursing homes, osteopaths, state laboratories/clinics, and surgicenters/walk-in clinics reported by the Florida Department of Health.
- (26) Hospital Facilities - Identifies hospital facilities reported by multiple sources.
- (27) Law Enforcement Facilities - Identifies law enforcement facilities reported by multiple sources.
- (28) Parks and Recreational Facilities - Identifies parks and recreational facilities reported by multiple sources.
- (29) Religious Center Facilities - Identifies religious centers including churches, temples, synagogues, mosques, chapels, centers, and other types of religious facilities reported by multiple sources.
- (30) Private and Public Schools - Identifies private and public schools reported by multiple sources.
- (31) Social Service Centers - Identifies social service centers reported by multiple sources.
- (32) Veteran Organizations and Facilities
