

S.R. A1A Improvements

from south of International Drive
to Long Point Road

Brevard County

Financial Project Identification (FPID) No.: 430202-5

Project Description

The Florida Department of Transportation (FDOT) is proposing improvements on State Road (S.R.) A1A from south of International Drive to Long Point Road in Cape Canaveral. The project is part of a larger effort to reconstruct the corridor to provide safer travel options for pedestrians, bicyclists and drivers.

This project proposes to enhance safety by realigning International Drive to connect to S.R. A1A at North Atlantic Avenue and construct a roundabout at the new intersection.

Raised medians will be installed north and south of the new intersection. Improved sidewalk and new bicycle lanes are planned in addition to new crosswalks at the roundabout and new landscaping. The project is also evaluating the use of pedestrian activated lights at the roundabout to enhance safety for those crossing S.R. A1A.

Other work taking place in this area involves similar safety improvements, construction of a raised median and bicycle track as part of project 430202-8. Please refer to that project handout for more detailed information.

Project Status and Estimated Costs*

Design:	Ongoing - completion summer 2022	\$ 1.2 Million
Right of Way:	Funded - summer 2022	\$ 10.2 Million
Construction:	Funded - late 2025	\$ 6.1 Million
