

I-75 Interchange C.R. 484 from SW 20th Avenue to C.R. 475A

Marion County

Financial Project Identification (FPID) No.: 433651-1

Project Description

The purpose of this project is to improve safety and operations at the Interstate 75 (I-75) interchange at County Road (C.R.) 484. The project will add or extend turn lanes, reconstruct and widen the westbound through lanes on C.R. 484, and modify the existing I-75 bridge to accommodate the widening. The project will also improve bicycle lane and pedestrian sidewalk connectivity through the project limits.

Modifications to the existing median, including closing some openings, are required for the roadway improvements. Initial design began in 2014 and a public hearing was held in October 2016 to present the design plans and receive public input. Right of way acquisition began in 2018 and was completed in summer 2020. A public meeting was held in January 2021.

Project Status and Estimated Costs*

Design:	Plans update completion late 2021	\$ 2.3 Million
Right of Way:	Completed summer 2020	\$ 2.8 Million
Construction:	To begin summer 2022	\$ 12.9 Million

* Subject to Change
