

ROADWAY RESURFACING

Orange Avenue from Sand Lake Road to Mandalay Road

Orange County

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) is resurfacing and implementing safety improvements on Orange Avenue (State Road (S.R.) 527) from Sand Lake Road (S.R. 482) to Mandalay Road in Orange County.

There are two projects associated with these improvements. The focus of FPID: 441144-1 is to resurface Orange Avenue from Sand Lake Road to Prince Street in the Pine Castle neighborhood. This project will also include realigning crosswalks, closing gaps between sidewalk sections, and reconstructing curb ramps to comply with Americans with Disabilities Act (ADA) requirements. Other work includes improving drainage and pedestrian signals, installing signs and pavement markings, and reconstructing the concrete island at the southwest corner of the Sand Lake Road intersection.

FPID: 435733-1 is within the portion of Orange Avenue that splits into two one-way roads, with Orange Avenue serving southbound traffic and Hansel Avenue carrying northbound traffic. The project limits start at Prince Street and end at Mandalay Road in the City of Edgewood. Work includes resurfacing the existing roadway and modifying lane widths to accommodate 7-foot-wide buffered bike lanes. Additionally, the on-street parking will be more defined using concrete curb extensions, and the sidewalk will be upgraded in compliance with ADA requirements.

WHAT TO EXPECT

Motorists should expect lane closures between 8 p.m. and 7 a.m. on weekdays and over the weekend. Electronic message boards and other signage will be used to direct traffic through the work zone.

Uneven pavement is a common roadway condition with resurfacing projects as the contractor must put down different layers of asphalt during various phases of construction. Motorists are asked to use extra caution while driving through the work zone. Additionally, the level of work activity will vary during different phases of construction, and paving operations will be intermittent. The contractor will maintain pedestrian access to sidewalks during construction using signed detours, traffic control devices, and/or temporary walkways and ramps, when appropriate.

Property owners are responsible for removing or relocating any privately owned irrigation, landscaping, decorations, and/or fencing within FDOT right of way before construction starts. FDOT reserves the right to cut and cap any irrigation and remove any items that conflict with the planned work in the right of way. If there are questions about whether you may have items within the right of way, please reach out to the contact above in the orange box.

The construction schedule could change due to weather or other unexpected conditions. For the most current project details and lane closure information, make sure to visit the project pages on FDOT's Central Florida website, www.cflroads.com.

Financial Project
Identification (FPID) Nos.:
441144-1 & 435733-1

CONTRACTOR

Hubbard Construction Company

PROJECT COST

\$5.6 Million

PROJECT START

August 2021

ESTIMATED COMPLETION

Summer 2022
