

RESURFACING AND SAFETY IMPROVEMENTS

S.R. 520 from east of Milford Point Drive to east of Cape Canaveral Hospital

Brevard County

**Financial Project Identification
(FPID) No.:** 442873-1

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) will improve safety and traffic operations on State Road (S.R.) 520. FDOT aims to extend the service life of the roadway by resurfacing along S.R. 520 from east of Milford Point Drive to east of Cape Canaveral Hospital entrance in Brevard County. This resurfacing and rehabilitation project will include guardrail replacements, updating pavement markings, and widening improvements along the roadway. This project will also improve roadway conditions for motorists, help enhance drivability in the area, and ensure roadway longevity.

WHAT TO EXPECT

Motorists should expect daytime and nighttime lane closures throughout construction. Electronic message boards and other signage will be used to alert motorists of traffic changes. Uneven pavement is a common, unavoidable roadway condition with projects that require resurfacing, as the contractor must place different layers of asphalt during various phases of construction. Road conditions during construction will become less apparent as the project progresses. Motorists are asked to exercise caution and reduce their speed while driving through the work zone.

The construction schedule may change due to weather or other unexpected conditions. For the most current project details and lane closure information, make sure to visit the project page on FDOT's Central Florida website, www.cflroads.com.

CONTRACTOR
OHLA USA, Inc.

PROJECT COST
\$3.5 Million

PROJECT START
April 2022

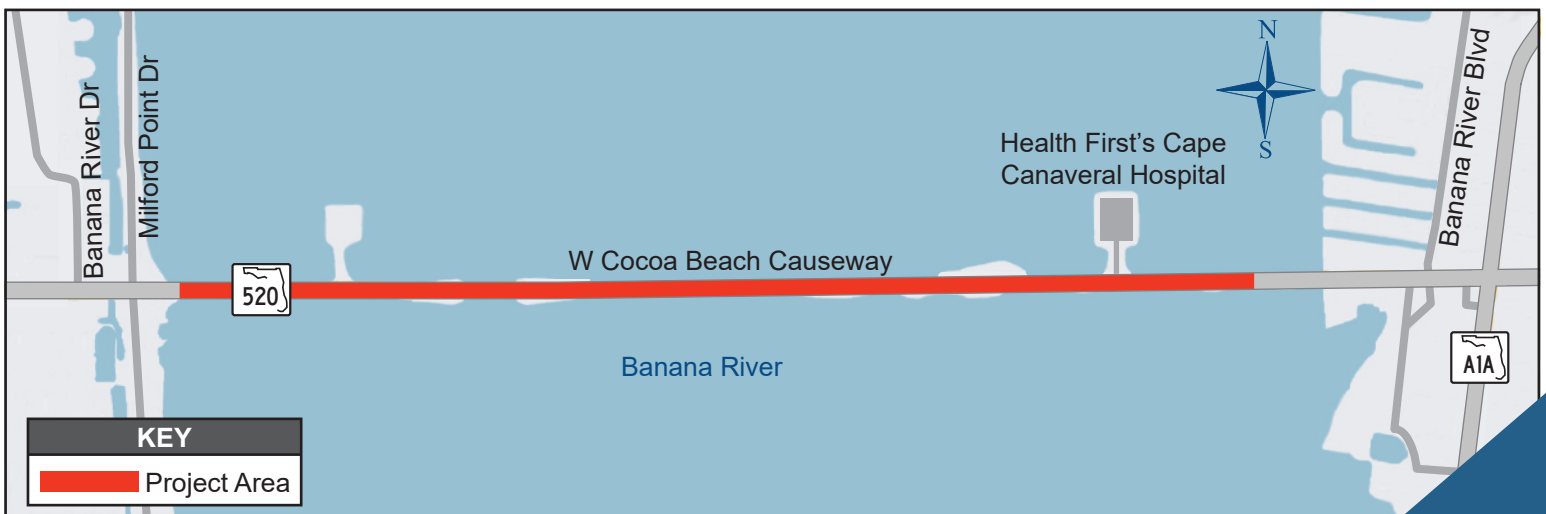

ESTIMATED COMPLETION
Early 2022
