

ROADWAY RESURFACING

S.R. 500/U.S. 441 from S.R. 429 Connector Road to Jones Avenue

Orange County

**Financial Project Identification
(FPID) No.: 442880-1**

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) will resurface the asphalt northbound and southbound areas of State Road (S.R.) 500/U.S. 441 from the S.R. 429 Connector Road within the City of Apopka to Jones Avenue in the unincorporated community of Zellwood. The project also includes widening, signalization, lighting, signing and pavement markings, drainage improvements, and sidewalk and pedestrian curb ramp reconstruction in accordance with the Americans with Disabilities Act (ADA).

WHAT TO EXPECT

Motorists should expect overnight lane closures. Electronic message boards and other signage will be used to direct traffic through the work zone.

Uneven pavement is a common roadway condition with resurfacing projects as the contractor must put down different layers of asphalt during various phases of construction. Motorists are asked to use extra caution while driving through the work zone. Road conditions during construction are short-term and will become less apparent as the project progresses.

Please be advised it is the property owner's responsibility to remove or relocate any privately owned irrigation, landscaping, decorations, and/or fencing within FDOT right of way property before the start of construction. If there are questions about whether you may have items within the FDOT right of way property, please contact the Community Outreach Coordinator at 407-278-2713.

The construction schedule could change due to weather or other unexpected conditions. For the most current project details and lane closure information, make sure to visit the project pages on FDOT's Central Florida Roads website, www.cflroads.com.

CONTRACTOR

Hubbard Construction Company

PROJECT COST

\$7.5 Million

PROJECT START

April 2022

ESTIMATED COMPLETION

Early 2023
