

# SAFETY IMPROVEMENTS

U.S. 441 from east of State Road 44 to south of Lincoln Avenue

**Lake County**

Financial Project  
Identification  
(FPID) No.:  
443592-1

## PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) will provide access management and safety improvements on U.S. 441 from east of State Road (S.R.) 44 to south of Lincoln Avenue. The purpose of this project is to improve safety along the corridor and extend the life of the existing roadway.

Work will consist of milling and resurfacing the roadway from east of S.R. 44 to south of Lincoln Avenue on U.S. 441. Paved shoulders and pedestrian lighting will be added at various locations along the corridor as well. The project will also lengthen the westbound right and left turn lanes on U.S. 441 approaching S.R. 44 and create a directional median at Pine Avenue.

Other improvements will include drainage modifications, traffic signal timing adjustments, and modifying sidewalks to comply with the Americans with Disabilities Act (ADA).

## WHAT TO EXPECT

During construction, motorists should expect lane closures and detours on weekdays and weekends. Electronic message boards and other signage will be used to direct traffic through the work zone.

Uneven pavement is a common condition with projects that require temporary asphalt pavement or resurfacing, as the contractor must put down different layers of asphalt during various phases of construction. Motorists are asked to exercise caution and reduce their speed while driving through the work zone.

The construction schedule may change due to weather or other unexpected conditions. For the most current project details and lane closure information, make sure to visit FDOT's Central Florida Roads website, [www.cflroads.com](http://www.cflroads.com).

### CONTRACTOR

Ranger Construction Industries, Inc.

### PROJECT COST

\$4.3 Million

### PROJECT START

Early 2022

### ESTIMATED COMPLETION

Early 2023
