

ROADWAY RESURFACING AND BRIDGE IMPROVEMENTS

U.S. 1 (S.R. 5) from the Brevard County Line to South Street

Volusia County

Financial Project Identification (FPID) Nos.
443813-1 and 447134-1

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) will resurface U.S. 1 (State Road (S.R.) 5) from the Brevard County Line to South Street in Volusia County. This work will help create a safer, smoother ride for motorists along this section of U.S. 1.

In addition to resurfacing, work will also include improvements to the northbound travel lanes of the bridge over Florida East Coast Railway. The application of an epoxy overlay will help extend the life of the bridge and increase friction on the road surface, making it safer for motorists. There will also be upgrades to a creek bridge drainage structure just south of County Line Road.

Other work includes guardrail replacement, additional drainage upgrades, and sidewalk reconstruction in certain areas near Church Street and Halifax Avenue.

WHAT TO EXPECT

Motorists should expect intermittent single lane closures on northbound and southbound U.S. 1 during construction. Electronic message boards and other signage will be used to alert motorists of closures.

Uneven pavement is a common, unavoidable roadway condition with projects that require resurfacing as the contractor must place different layers of asphalt during various phases of construction. Motorists are asked to exercise caution and reduce their speed while driving through the work zone. The contractor will maintain pedestrian access to sidewalks during construction using signed detours, traffic control devices, and/or temporary walkways and ramps, when appropriate.

The construction schedule may change due to weather or other unforeseen circumstances. For the most current project details and lane closure information, make sure to visit the project page on FDOT's Central Florida Roads website, www.cflroads.com.

CONTRACTOR

Masci General Contractors, Inc.

PROJECT COST

\$6.9 Million

PROJECT START

March 2022

ESTIMATED COMPLETION

Early 2023
