

# ACCESS MANAGEMENT IMPROVEMENTS

S.R. 520 (West King Street) from Cox Road to Aurora Street

**Brevard County**

**Financial Project Identification (FPID)**

**No.:** 445689-1

## PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) is enhancing safety through access management improvements along State Road (S.R.) 520 (West King Street) from Cox Road to Aurora Street in Cocoa West. The project is based on recommendations in the Access Management Safety Study completed in June 2019. The goal of access management is to reduce the number and severity of crashes by reducing conflict points, or areas where vehicles can cross paths and potentially crash.

The project calls for closing some median openings and constructing directional median openings at other locations. New left turn lanes will be added at several intersections, while others will be extended to provide more space for vehicles. The project will also repave turn lanes and upgrade existing traffic signals. Necessary drainage work and lighting upgrades are also planned.

## WHAT TO EXPECT

Motorists should expect lane closures throughout construction. Electronic message boards and other signage will be used to alert motorists of traffic changes. Uneven pavement is a common, unavoidable roadway condition with projects that require resurfacing, as the contractor must place different layers of asphalt during various phases of construction. Road conditions during construction will become less apparent as the project progresses. Pedestrian detours will be placed in areas where the sidewalk is inaccessible during construction. Motorists and pedestrians are asked to exercise caution and reduce their speed while driving through the work zone.

The construction schedule may change due to weather or other unexpected conditions. For the most current project details and lane closure information, make sure to visit the project page on FDOT's Central Florida Roads website, [www.cflroads.com](http://www.cflroads.com).

### CONTRACTOR

Masci General Contractor, Inc.

### PROJECT COST

\$4.6 Million

### PROJECT START

January 2024

### ESTIMATED COMPLETION

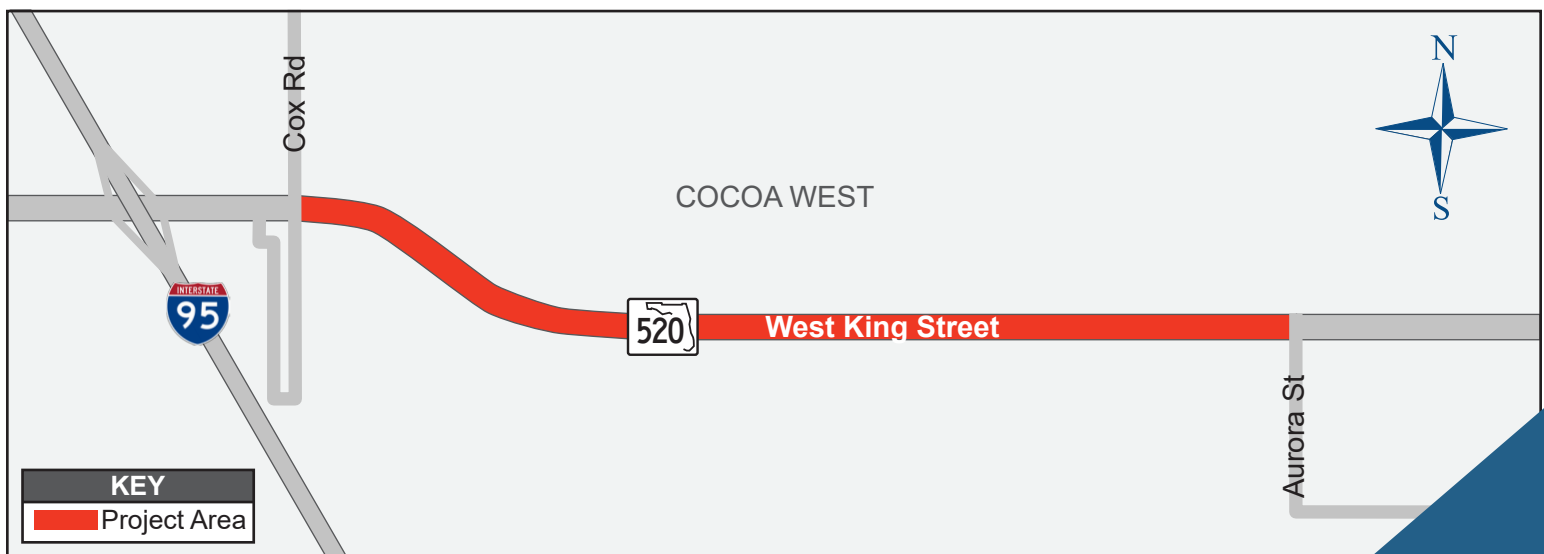

Spring 2025
