

S.R. A1A Safety Improvements

from north of Ocean Marina Drive to south of Westmayer Place

Flagler County

Financial Project Identification (FPID) No.: 445690-1

Project Description

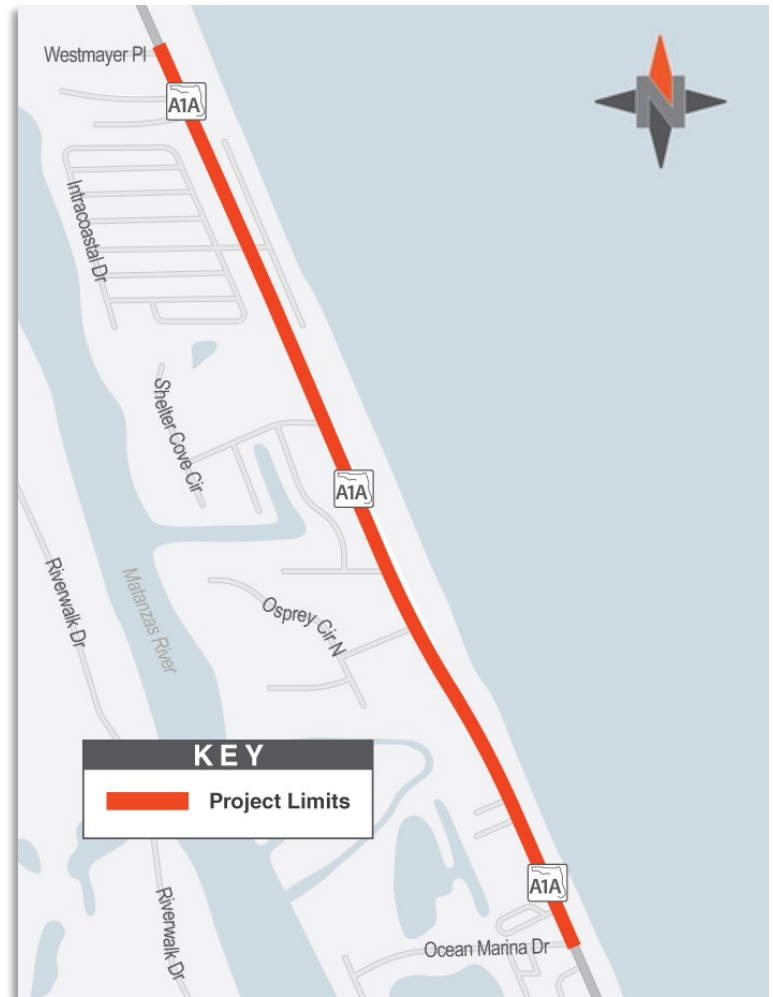

This Florida Department of Transportation (FDOT) project proposes to enhance vehicle and pedestrian safety in the Town of Beverly Beach by implementing the recommendations of a 2019 pedestrian safety study.

The project plans to reconstruct and upgrade the existing pedestrian crossing at the Beverly Beach Camptown RV Resort with landscaping and lighting to increase the visibility of the crosswalk. The Department is considering pedestrian activated lights to further increase driver awareness and visibility at the crosswalk. The project will also reconstruct existing sidewalk and add approximately 465 feet of new sidewalk south of the new crossing.

As part of the project, S.R. A1A will be repaved from north of Shelter Cove Drive to south of Westmayer Place. Additionally, the project will construct raised medians from the Beverly Beach Town Hall to just south of Luta Lane and add a left turn lane from northbound S.R. A1A to Surfside Estates.

Other improvements include upgrading driveway connections, and improving drainage.

Parking near the Beverly Beach Town Hall and beach access will be maintained.

Project Status and Estimated Costs*

Design:	Ongoing - completion early 2022	\$ 452,000
Right of Way:	Within existing	—
Construction:	Funded - fall 2022	\$ 1.4 Million

* subject to change
