

INTERSECTION IMPROVEMENTS

13th Street (U.S. 192) from Florida Avenue to Michigan Avenue

Osceola County

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) will enhance safety and operations on 13th Street (U.S. 192) in the City of St. Cloud. The improvements at the intersections of Florida Avenue, Indiana Avenue, and Michigan Avenue include adding pedestrian activated signals, reconstructing the existing median, and upgrading the existing traffic signals. Other features of this project include the installation of new crosswalks at all intersections and upgrading the lighting to enhance pedestrian safety. The project will reconstruct pedestrian curb ramps in accordance with current Americans with Disabilities Act (ADA) standards.

WHAT TO EXPECT

During construction, motorists should expect daytime and nighttime lane closures and detours on weekdays and weekends. Electronic message boards and other signage will be used to direct traffic through the work zone. Road conditions during construction will become less apparent as the project progresses. Motorists are asked to exercise caution and reduce their speed while driving through the work zone. Due to construction, there might be some noise around the area.

The contractor will maintain pedestrian access to sidewalks during construction using signed detours, traffic control devices, and/or temporary walkways and ramps, when appropriate. The construction schedule may change due to weather, special events, and other unexpected conditions. For the most current project details, visit the project pages on FDOT's Central Florida Roads website, www.cflroads.com.

Financial Project Identification (FPID) No.: 445709-1

CONTRACTOR
Chinchor Electric, Inc.

PROJECT COST
\$3.5 Million

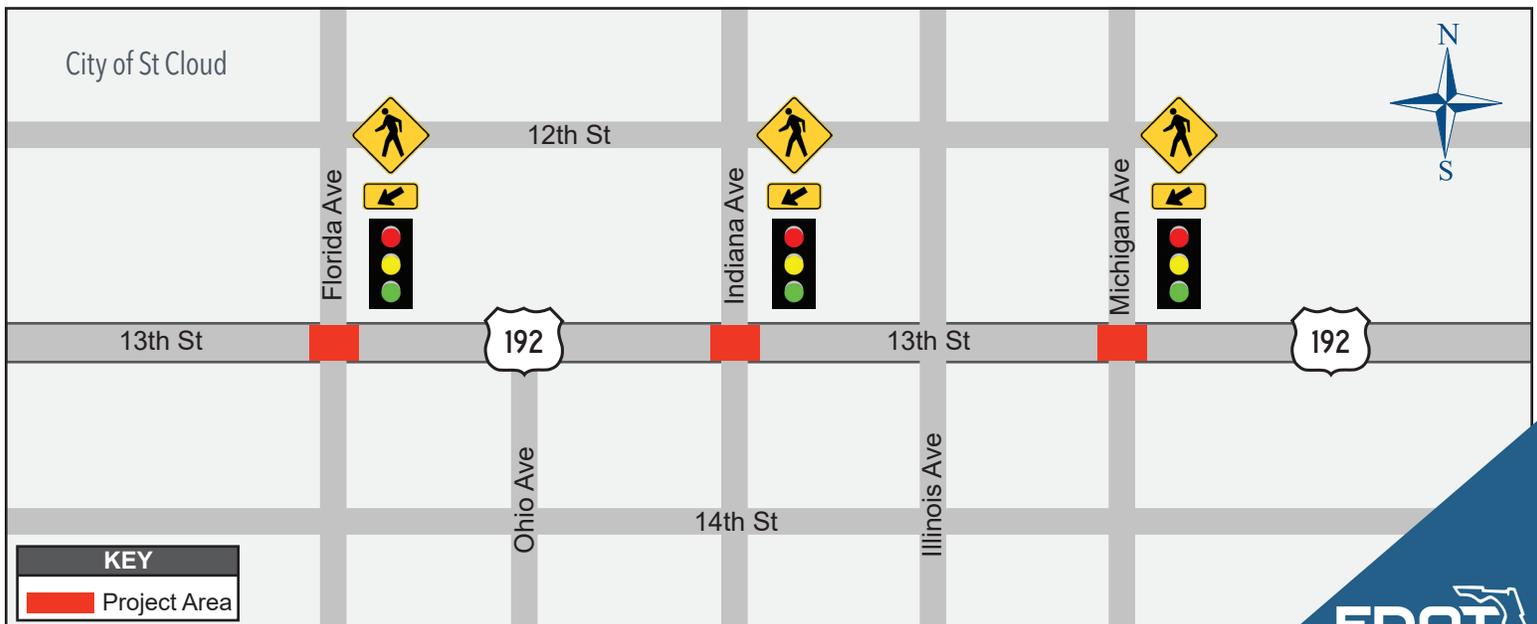

PROJECT START
September 2023

ESTIMATED COMPLETION
Summer 2024
