

### U.S. 1 Roundabout at Matanzas Woods Parkway - General Facts:

1. Large, visible signs, along with directional pavement markings, assist motorists with navigating the roundabout.
2. Southbound and northbound roundabout lanes allow safe access to and from Matanzas Woods Parkway.
3. The posted speed through the roundabout will be 25 miles per hour.
4. The roundabout accommodates vehicles of all sizes, including passenger cars, buses and large trucks.
5. Landscaping, street lighting, roadway curvature, and signage will help to reduce speeds as traffic approaches and proceeds through the roundabout.
6. Construction is expected to begin the summer of 2019.
7. During construction, motorists will still be able to travel along U.S. 1, and local road access will be maintained.

### Alternatives Comparison

Alternative		Provides access to/from side street	Reduces speeds on US 1	Reduces crash severity
Traffic Signal		✓	✗	✗
Directional median opening		✓	✗	✗
Full median closure		✗	✗	✓
Modern Roundabout		✓	✓	✓
