

# Signal Modifications on State Road (S.R.) 520 at Cape Canaveral Hospital Cocoa, Brevard County

Financial Project ID: 437755-1-52-01

## Project Description

The Florida Department of Transportation will be making traffic signal modifications on S.R. 520 (W. Cocoa Beach Causeway) at the entrance to Cape Canaveral Hospital. The project involves replacing the existing strain poles with mast arms, removing the continuous green light for eastbound through traffic, and bringing the westbound and southbound right turn lanes under signal control.

This safety enhancement project also includes construction of a pedestrian crossing on S.R. 520 to connect the multi-use trail on the south side of the road with the bus stop on the northwest side of the intersection. The existing eastbound left turn lane will be lengthened to meet current design standards.

Construction will begin with building the bases for the mast arms in early January. The signals are expected to be installed by spring 2018.

## Information for Motorists and Pedestrians

The work will require periodic daytime and nighttime single lane closures near the intersection. Motorists are asked to please use caution in the area and be alert for changing traffic patterns. Construction may also require temporary sidewalk closures and changes to pedestrian routes. Pedestrians will be safely directed around the work.

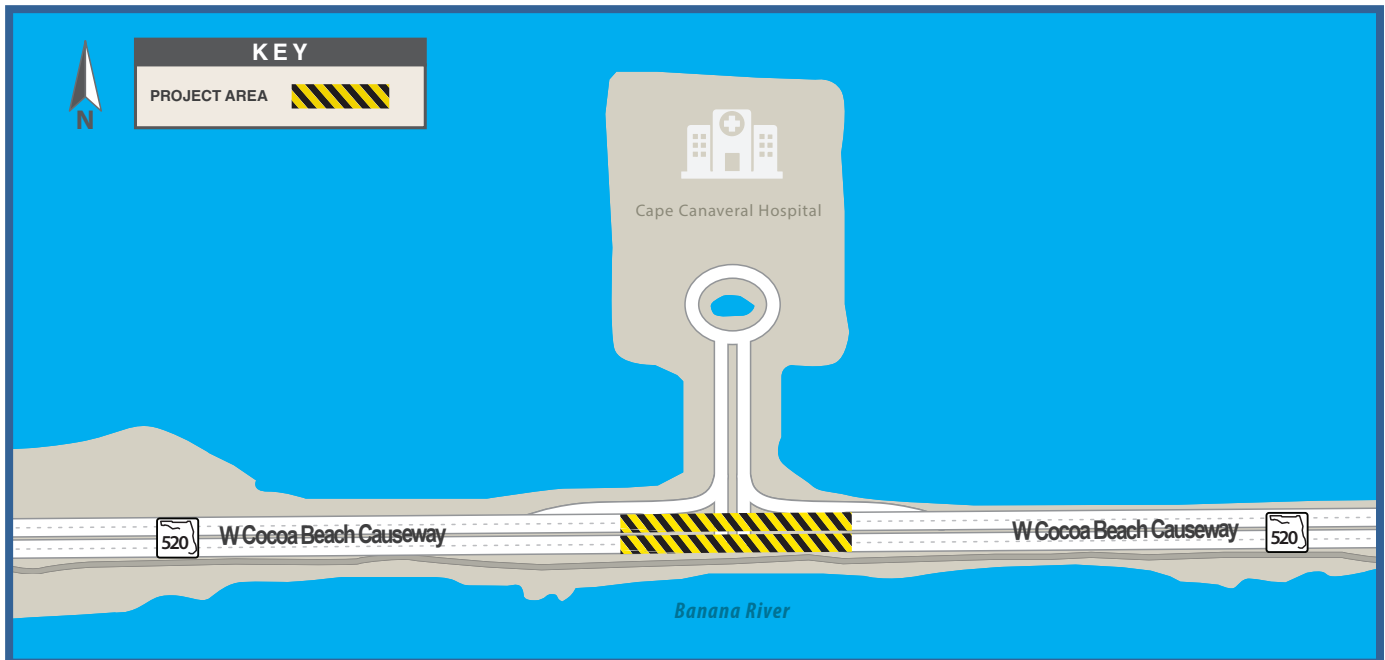

### At a Glance

**Contractor:**  
P&S Paving, Inc.

**Project Start:**  
January 2018

**Estimated Completion:**  
Spring 2018

Lane closure information can be found on the FDOT Central Florida website [www.cflroads.com](http://www.cflroads.com).
