

# I-95 RESURFACING PROJECT

Financial Project  
Identification No.:  
439131-1

North of S.R. 40 to Old Dixie Highway

**Volusia and Flagler Counties**

## PROJECT DESCRIPTION

The project will resurface all travel lanes of Interstate 95 (I-95) from north of State Road (S.R.) 40 (Exit 268) in Ormond Beach to Old Dixie Highway (Exit 278) in Flagler County, as well as the ramps at the I-95 and U.S. 1 interchange (Exit 273). The project will also include guardrail replacement and upgrades, barrier wall construction, crash wall installation, bridge joint replacement, signing and pavement marking, and improvements to Intelligent Transportation Systems (ITS) infrastructure. ITS improves transportation safety and mobility through the integration of communications technologies into the transportation infrastructure and in vehicles.

## WHAT TO EXPECT

This project will require lane closures and ramp closures with detours. Most lane closures, as well as the ramp closures, will occur at night. Electronic message boards and other signage will be used to alert motorists of closures and detours. Updates also can be found on FDOT's Central Florida website [www.cflroads.com](http://www.cflroads.com).

## AT A GLANCE:

### CONTRACTOR:

Halifax Paving, Inc.

### PROJECT COST:

\$9.5 Million

### PROJECT START:

January 2020

### ESTIMATED COMPLETION:

Early 2021
