The Florida Department of Transportation (FDOT) is holding an informational open house regarding the resurfacing project on S.R. 25/U.S. 27 from south of Arlington Ridge Blvd. to north of C.R. 33 in portions of the City of Leesburg and unincorporated regions of Lake County.

PROPOSED ROADWAY IMPROVEMENTS:

The intent of this project is to mill and resurface the existing pavement to extend the life of the roadway. Resurfacing improvements include travel lanes, shoulders, auxiliary lanes, and median crossovers. The project also includes operational and maintenance improvements such as extending turn lanes in some areas, constructing a new southbound directional median opening with a left turn lane at the First National Bank driveway just south of Pelican Isle Drive. Intersection improvements at C.R. 33 include eliminating the continuous green lane along northbound S.R. 25 and providing dual left turn lanes from C.R. 33 to northbound S.R. 25 to improve intersection safety. Various safety enhancements are included to comply with current Americans with Disabilities Act (ADA) and FDOT standards regarding pedestrian features, including adding crosswalks at C.R. 48. This project will not require additional right-of-way.
