

SR 5 (US 1) Roundabout at Old Dixie Highway

- General Facts**
1. Large, visible signs, along with directional pavement markings, assist motorists with navigating the roundabout.
 2. Roundabout has a bypass lane, which facilitates southbound U.S. 1 through traffic.
 3. Southbound and northbound roundabout lanes allow safe access to and from Old Dixie Highway and County Road (C.R.) 325.
 4. Trojan Road will have a right turn access in and right turn access out.
 5. Access to local businesses will be maintained.
 6. The posted speed through the roundabout will be 25 miles per hour.
 7. The roundabout accommodates vehicles of all sizes, including passenger cars, buses and large trucks.
 8. Landscaping, street lighting, roadway curvature, and signage will help to reduce speeds as traffic approaches and proceeds through the roundabout.
 9. Construction is expected to begin the fall of 2018.
 10. During construction, motorists will still be able to travel along U.S. 1, and local road access will be maintained.

Alternative		Provides access to/from side street	Reduces speeds on US 1	Reduces crash severity
Traffic Signal		✓	✗	✗
