

INTERSECTION IMPROVEMENTS

S.R. 472 at Minnesota Avenue

Volusia County

Financial Project Identification

(FPID) No. 446558-1

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) is implementing safety and mobility improvements at the intersection of State Road (S.R.) 472 and Minnesota Avenue in southwestern Volusia County. This project spans approximately half a mile on S.R. 472 from west of Minnesota Avenue to just east of Durfey Avenue.

Intersection improvements include the construction of a two-way directional median on S.R. 472 that will allow left turns onto Minnesota Avenue, but only permit right turns from Minnesota Avenue onto S.R. 472. A new westbound right turn lane from S.R. 472 onto Minnesota Avenue and a new U-turn opening with wider pavement to accommodate larger vehicles will also be installed west of the intersection. These improvements are designed to reduce potential vehicle collision points at the intersection while still allowing traffic to flow. The roadway within the project limits will also be resurfaced and updated with new pavement markings and minor drainage improvements.

WHAT TO EXPECT

Motorists should expect intermittent nighttime lane closures on S.R. 472 and Minnesota Avenue during construction. Electronic message boards and other signage will be used to direct traffic around lane closures. Access to residences and businesses, as well as pedestrian access, will be maintained throughout the duration of the project.

The level of work activity will vary during different phases of construction, and the schedule may change due to weather or other unforeseen circumstances. For the most current project details and lane closure information, make sure to visit the project page on FDOT's Central Florida Roads website, www.cflroads.com.

CONTRACTOR

Wrangler Construction, Inc.

PROJECT COST

\$1.2 Million

PROJECT START

February 2023

ESTIMATED INSTALLATION COMPLETION

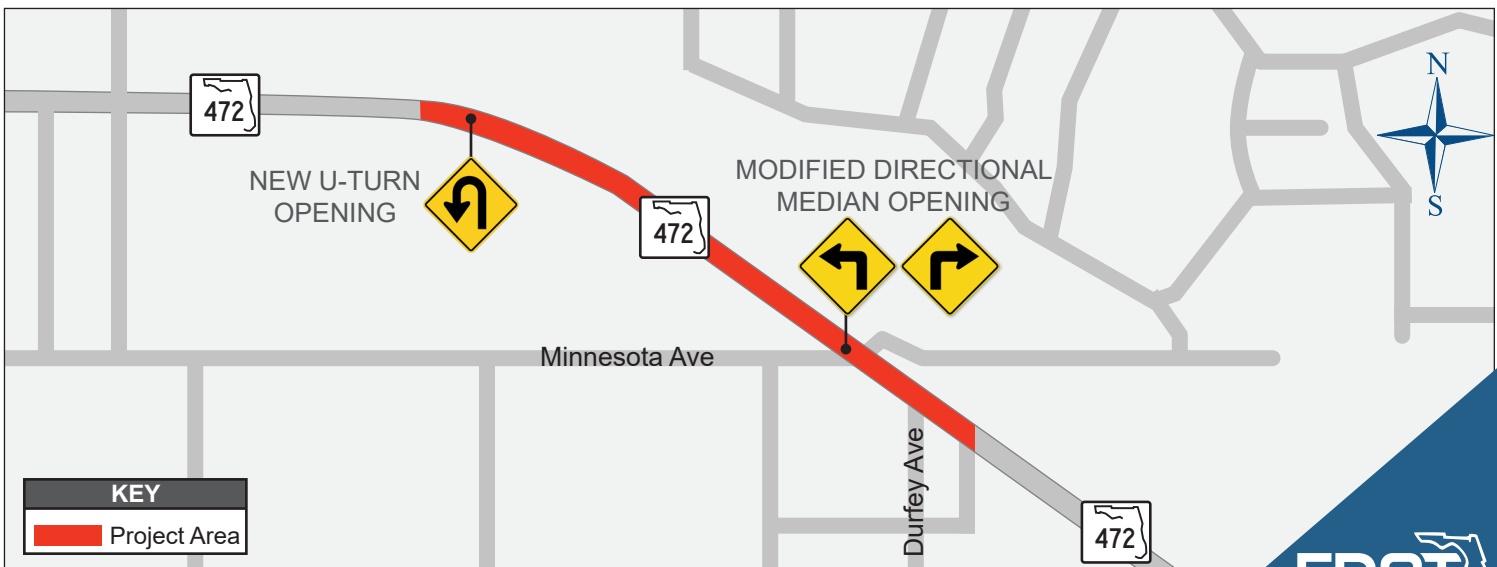

Summer 2023
