

INTERSECTION IMPROVEMENTS

U.S. 1 (S.R. 5) and Fay Boulevard

Brevard County

Financial Project
Identification
(FPID) No.:
445587-1

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) is implementing several operational and safety improvements at the intersection of U.S. 1 (State Road (S.R.) 5) and Fay Boulevard in Port St. John. The project will involve the reconstruction and modernization of the existing traffic signal system, including the installation of new signal poles. Improvements focused on pedestrian safety include rebuilding corner curbs and curb ramps to meet current Americans with Disabilities Act (ADA) standards, adding and upgrading crosswalks, and constructing new pedestrian signals. The intersection will also be milled and resurfaced to extend the service life of the corridor.

WHAT TO EXPECT

During construction, motorists can expect intermittent single- and double-lane closures on U.S. 1 between 8 p.m. and 8 a.m., as well as on Fay Boulevard during active work periods. The posted speed limit along U.S. 1 may be reduced to 35 miles per hour during certain phases of construction. Motorists are advised to proceed with caution when traversing the corridor.

Electronic message boards and other signage will direct traffic through the work zone. Levels of work activity and noise will vary during different construction phases.

Please note that the construction schedule may change due to inclement weather or other unforeseen circumstances. For the most current project details and lane closure information, please visit FDOT's Central Florida website at www.cflroads.com.

CONTRACTOR

Chinchor Electric, Inc.

PROJECT COST

\$1.1 million

PROJECT START

July 2026

ESTIMATED COMPLETION

Fall 2026
