## EXISTING

## PROPOSED

## SUMMARY OF POTENTIAL IMPROVEMENTS:

- In-pavement lighting
- Ped/bike shared-use paths
- Road curves to change speed (Chicanes)
- Wider sidewalks
- Smart delivery zones
- Raised intersections/crosswalks
- Mid-block crossings, raised tables and textured crosswalks
- Closing of left turn lanes to improve traffic conditions
- Adding shade trees along medians and sidewalks
- Pedestrian crosswalk lighting
- Smart solar lighting
- Modular plastic devices used to separate bike lanes (Zicla Zipper)
- Retractable and removable bollards/posts
- Dynamic Message Signs (DMS)
  - Convention center events
  - Travel times
  - Incident information
