

State Road 600/U.S. 17-92 (South Orange Blossom Trail) from west of Poinciana Boulevard to County Road 535 (Ham Brown Road)

Osceola County

Financial Project Identification No.: 239714-1

Project Description

The Florida Department of Transportation (FDOT) will be widening State Road 600/U.S. 17-92 (South Orange Blossom Trail) from two to four lanes starting west of Poinciana Boulevard to Ham Brown Road in Kissimmee.

In addition to adding lanes and a grass median, work will include drainage improvements, traffic signal upgrades, and median access improvements. The contractor will also be installing new Intelligent Transportation Systems (ITS) tubing and fiber, highway signs, lighting, and sidewalks.

There will be seven median access changes on the project. Three full median openings will be constructed at Avenue A, Alexander Street/Whispering Pines Boulevard, and Business Center Lane. Full median openings allow left and rights turns into and out of a property. Four directional median openings will be constructed at Avenue B, Louis Drive, Delores Drive, and Universal Drive. Directional median openings allow left and right turns into a property, but only right turns out of a property.

Lane Closures

Drivers can expect nighttime lane closure between 10 p.m. and 6 a.m.

Electronic message boards and other signage will be used to inform motorists about upcoming closures, detours or any other significant traffic pattern changes. Access to businesses and/or residences will be maintained.

Please note the work schedule and estimated completion date for the project may change due to weather or other unexpected conditions.

At A Glance

Contractor:

Southland Construction, Inc.

Project Cost:

\$23.5 Million

Project Length:

2.2 miles

Work to Begin:

February 2019

Estimated Completion:

Spring 2022
