

S.R. A1A RESURFACING & SAFETY IMPROVEMENTS From North of Roberta Road to the Flagler County Line

Volusia County

Financial Project Identification (FPID) Number: 450946-1

Project Description

The Florida Department of Transportation (FDOT) is resurfacing and making safety improvements to State Road (S.R.) A1A from north of Roberta Road to the Flagler County line in northern Volusia County. This project is currently under construction and is scheduled to be completed in Fall 2027.

With the ongoing construction, FDOT has received comments from the local community about the curb being constructed on the west side of S.R. A1A, adjacent to the southbound travel lanes from north of Roberta Road to south of North Peninsula State Park. Given the feedback received, FDOT has opted to remove the curb in areas where it is not critical for roadway drainage. Roadway shoulder and a shared use path will be constructed, as space allows, throughout the corridor. FDOT is also evaluating opportunities for new landscaping in this corridor. The following information outlines the typical section on S.R. A1A with the removal of the curb.

FDOT is performing the needed drainage and engineering analysis to determine where the recently constructed curb can be removed. As this is determined, the contractor will be removing the curb. This process will be completed by segment for S.R. A1A from north of Roberta Road to south of North Peninsula State Park.
