

ROADWAY RESURFACING

I-95 from south of S.R. 50 to S.R. 46

Brevard County

**Financial Project
Identification
(FPID) No.:**
450771-1

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) is resurfacing approximately 9.7 miles of northbound and southbound Interstate 95 (I-95) from south of State Road (S.R.) 50 to S.R. 46 in Titusville and Mims. The project also includes resurfacing the I-95 ramps at the S.R. 50, S.R. 406 and S.R. 46 interchanges.

The northbound I-95 exit ramp to S.R. 46 will be widened to extend the existing right turn lane, facilitating smoother traffic flow. Additional improvements include upgraded ramp lighting, refreshed roadway signs and pavement markings, as well as enhanced traffic management technology to improve safety and travel through the area.

WHAT TO EXPECT

During construction, motorists should expect intermittent single lane closures between 7 p.m. and 7 a.m. The existing posted speed limit of 70 mph will be maintained throughout the project limits. Motorists are advised to proceed with caution.

Electronic message boards and other signage will direct traffic through the work zone. The levels of work activity and noise will vary during different construction phases. Motorists should anticipate areas of uneven pavement within the project limits, a common condition during construction when the contractor applies multiple asphalt layers in phases. Many of these roadway conditions are short-term and will gradually improve as the project progresses.

Please note that the construction schedule may change due to inclement weather or other unforeseen circumstances. For the most current project details and lane closure information, please visit FDOT's Central Florida website at www.cflroads.com.

CONTRACTOR

Masci General Contractors, Inc.

PROJECT COST

\$29.8 million

PROJECT START

January 2026

ESTIMATED COMPLETION

Spring 2027
