

S.R. 40 Resurfacing

From NE 64th Avenue to the Lake County Line

Marion County

Financial Project Identification (FPID) Number: 450948-1

Project Description

The Florida Department of Transportation (FDOT) is proposing operational and safety improvements on State Road (S.R.) 40 from NE 64th Avenue to the Lake County line in Marion County.

The purpose of this project is to extend the service life of the existing roadway by repaving all travel lanes and shoulders on S.R. 40 within the project limits. The project also proposes installing Audible & Vibratory Treatment (AVT) along the outside edge of the travel lanes to enhance safety throughout the corridor. AVT consists of pavement markings that help reduce lane departure crashes by alerting drivers if their vehicle drifts outside of the travel lane. Similarly, rumble strips are proposed at the approach to the intersection at S.R. 326 to warn drivers that the road is ending.

Other proposed improvements include restriping the intersection at County Road (C.R.) 314A to provide pedestrian crosswalks as well any necessary updates to existing pavement markings and signage within the project limits.

This project will be constructed with two other adjacent projects on S.R. 40 from U.S. 441 to NE 25th Avenue (FPID No. 450952-1) and from NE 25th Avenue to NE 64th Avenue (FPID No. 450951-1).
