

U.S. 301 (S.R. 35) Improvements

from C.R. 470 to Florida's Turnpike
Sumter County

Financial Project Identification (FPID) Nos.: 430132-2, 430132-4 & 430132-5

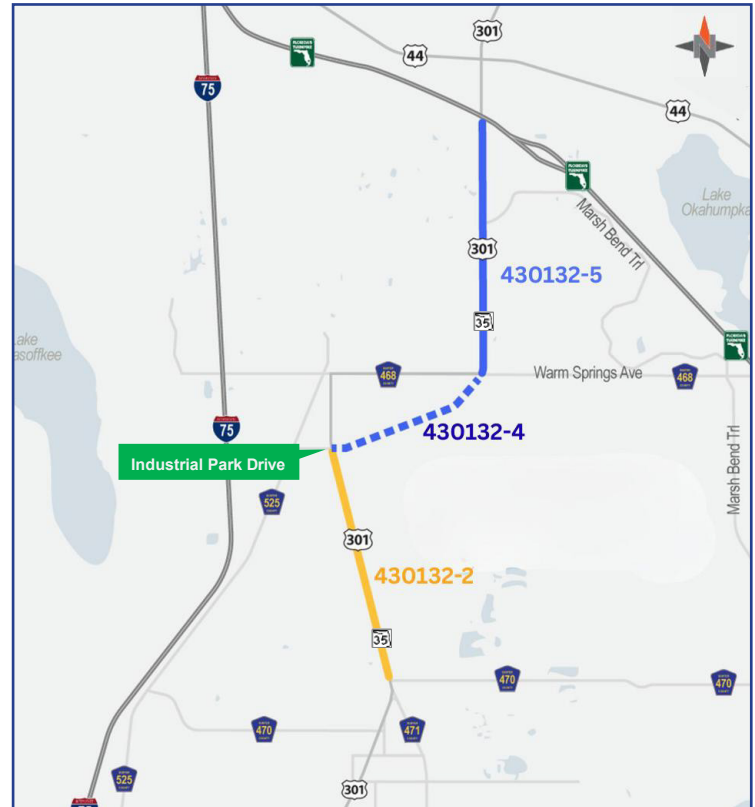

Project Description

The Florida Department of Transportation (FDOT) is improving U.S. 301 (State Road (S.R.) 35) from County Road (C.R.) 470 to Florida's Turnpike in Sumter County.

FDOT plans to widen this portion of U.S. 301 to provide two travel lanes in each direction, separated by a grassed median.

The improvements will be constructed in three projects:

- FPID 430132-2 will widen U.S. 301 from C.R. 470 to Industrial Park Drive.
- FPID 430132-4 is now in construction to realign U.S. 301 from Industrial Park Drive to Warm Springs Avenue (C.R. 468). The project included interim improvements to help relieve congestion at Florida's Turnpike interchange, which are now complete.
- FPID 430132-5 will continue to widen U.S. 301 from Warm Springs Avenue to Florida's Turnpike.

FDOT plans to have advanced land clearing begin later this year for project 430132-2 to facilitate early relocation of utilities and a more efficient construction schedule.

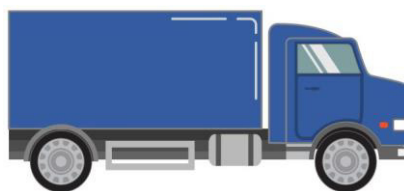

In addition to widening, the project will add a shared-use path on both sides of the road, install traffic signals at Industrial Park Drive and Warm Springs Avenue, and build a roundabout at Marsh Bend Trail.

Right of way acquisition for 430132-2 is anticipated to be complete later this year with 430132-5 following in early 2027. Advanced clearing will also take place for project 430132-5 after right of way is finished.

Project Purpose & Need

Addresses expected **traffic growth** and **congestion**.

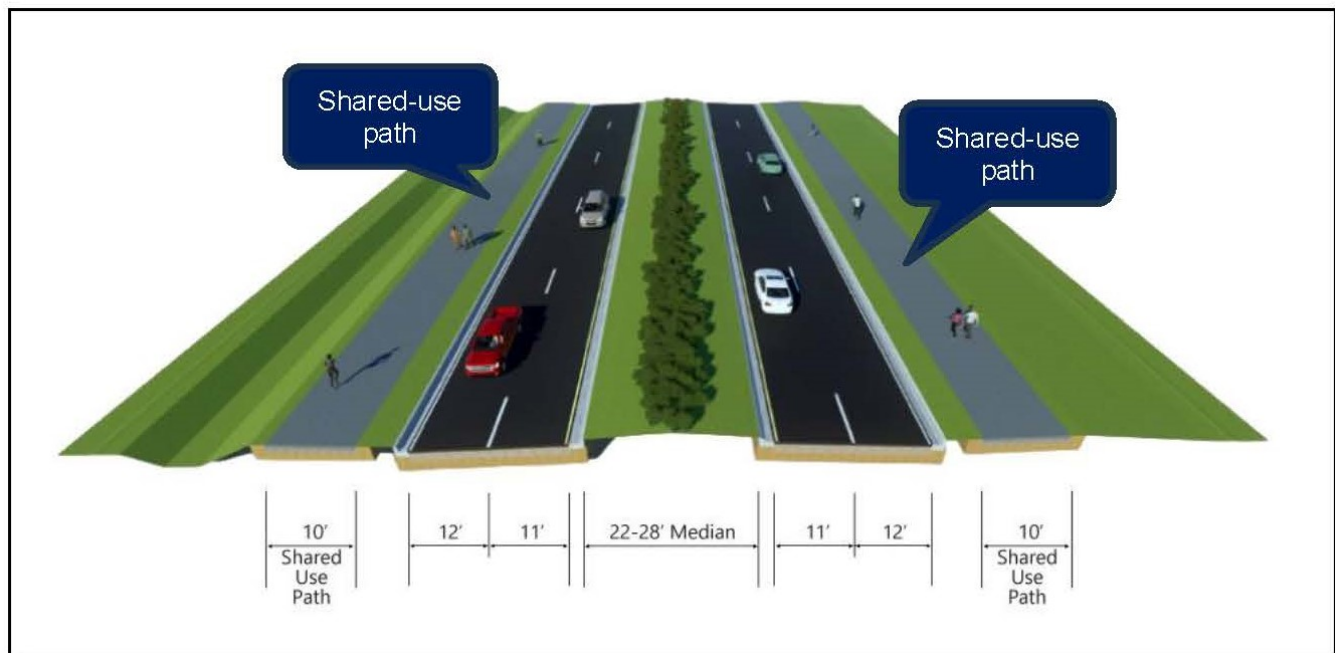

Accommodates **high volume** of existing and future **truck traffic**.

Supports **social and economic opportunities** for the fastgrowing region.

Proposed U.S. 301 Typical Section

Project Status & Estimated Costs *

PD&E Study:	Completed 2019	\$ 2.15 Million
Design (all segments):	Completion late 2026	\$ 13.7 Million
Right of Way (all segments):	Completion late 2026	\$ 58 Million
Construction 430132-2:	Funded spring 2027	\$ 63 Million
Construction 430132-5:	Funded late summer 2027	\$ 66 Million
