Fiske Boulevard (S.R. 519) from Barbara Jenkins Street to King Street (S.R. 520)

## Brevard County

### PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) is implementing safety improvements on Fiske Boulevard (State Road (S.R.) 519) from Barbara Jenkins Street to King Street (S.R. 520) in Cocoa.

The project includes reducing the speed limit to 35 mph within the project limits, extending the northbound right turn lane beyond Stone Street, constructing a shared-use path to accommodate bicyclists and pedestrians, and installing a concrete traffic separator between the northbound and southbound lanes.

The project also includes a new midblock pedestrian crossing just north of Barbara Jenkins Street. This crossing features a raised concrete median with a pedestrian refuge and overhead Rectangular Rapid Flashing Beacons (RRFBs).

When activated by a pedestrian, the RRFBs flash yellow lights to alert drivers and increase pedestrian visibility at the crossing. Under Florida law, drivers must stop at marked crosswalks when pedestrians are present. For more information about RRFBs and how to use them, [visit: www.alerttodayflorida.com/Pedestrian](http://www.alerttodayflorida.com/Pedestrian).

This project is being constructed with another project that will install new traffic signals at the intersection of Fiske Boulevard and Levitt Parkway/Lakemoor Boulevard in Rockledge (FPID No. [450417-1](#)).

### WHAT TO EXPECT

During construction, crews will be permitted to work between 9:30 a.m. and 2:30 p.m. Additionally, motorists can expect intermittent single-lane closures between 7 p.m. and 7:30 a.m. and are advised to proceed with caution, especially when workers are present.

Electronic message boards and other signage will direct traffic through the work zone. Levels of work activity and noise will vary during different construction phases. Motorists should anticipate areas of uneven pavement within the project limits, a common condition during construction when the contractor applies multiple asphalt layers in phases. Many of these roadway conditions are temporary and will gradually improve as the project progresses.

Please note that the construction schedule may change due to inclement weather or other unforeseen circumstances. For the most current project details and lane closure information, please visit FDOT's Central Florida website at [www.cflroads.com](http://www.cflroads.com).
