

ROADWAY RESURFACING

I-95 from S.R. 46 to Southbound I-95 Rest Area

Brevard County

**Financial Project
Identification
(FPID) No.:**
450594-1

PROJECT DESCRIPTION

The Florida Department of Transportation (FDOT) is resurfacing approximately 3 miles of Interstate 95 (I-95) from State Road (S.R.) 46 to the southbound I-95 rest area in Mims, Florida. This work will extend the service life of the existing roadway and enhance overall safety.

WHAT TO EXPECT

During construction, motorists can expect intermittent single-lane closures during active work periods, as well as nighttime double-lane closures on I-95 between 8 p.m. and 7 a.m. Interchange ramp closures may occur between 7 p.m. and 6 a.m. Motorists are advised to proceed with caution when traveling through the corridor.

Electronic message boards and other signage will direct traffic through the work zone. Levels of work activity and noise will vary during different construction phases. Motorists should anticipate areas of uneven pavement within the project limits, a common condition during construction when the contractor applies multiple asphalt layers in phases. Many of these roadway conditions are short-term and will gradually improve as the project progresses.

Please note that the construction schedule is subject to change due to inclement weather or other unforeseen circumstances. For the most current project details and lane closure information, please visit FDOT's Central Florida website at www.cflroads.com.

CONTRACTOR

Masci General Contractor, Inc.

PROJECT COST

\$2.98 million

PROJECT START

November 2026

ESTIMATED COMPLETION

Early 2027
